Contexts, Subtexts and Pretexts Brian James Baer, 2011-04-13 This volume presents Eastern Europe and Russia as a distinctive translation zone despite significant internal differences in language religion and history The persistence of large multilingual empires which produced bilingual and even polyglot readers the shared experience of belated modernity and the longstanding practice of repressive censorship produced an incredibly vibrant profoundly politicized and highly visible culture of translation throughout the region as a whole The individual contributors to this volume examine diverse manifestations of this shared translation culture from the Romantic Age to the present day revealing literary translation to be at times an embarrassing reminder of the region s cultural marginalization and reliance on the West and at other times a mode of resistance and a metaphor for cultural supercession This volume demonstrates the relevance of this region to the current scholarship on alternative translation traditions and exposes some of the Western assumptions that have left the region underrepresented in the field of Translation Studies

Interpretacija Svetega Pisma Jože Krašovec, 1998-01-01 This unique volume is perhaps the most comprehensive scholarly work of our time on the translation and interpretation of the Bible At its core are papers presented to an international symposium in Ljubljana in September 1996 to mark the publication of the new Slovenian version of the Bible a landmark in Slovene identity and cultural life In addition its distinguished editor Joze Krasovec has commissioned a wide range of contributions devoted to translations of the Bible in many languages including Croatian Czech Hungarian Polish and the Scandinavian languages
