Occhipinti,Tara Hefferan,2010-07-02 This edited collection provides an in depth ethnographic study of faith based development organizations in the United States shining a much needed critical light onto these organizations and their role in the United States by exploring the varied ways that faith based organizations attempt to mend the fissures and mitigate the effects of neoliberal capitalism poverty and the social service sector on the poor and powerless In doing so Not by Faith Alone generates provocative and sophisticated analyses grounded in empirical case studies of such topics as the meaning of faith based development evaluations of faith based versus secular approaches the influence of faith orientation on program formulation and delivery and examinations of faith based organizations impacts on structural inequality and poverty alleviation Taken together the chapters in this volume demonstrate the vital importance of ethnography for understanding the particular role of faith based agencies in development The contributors argue for an
