

NARROW AND ROLLED HEMMING

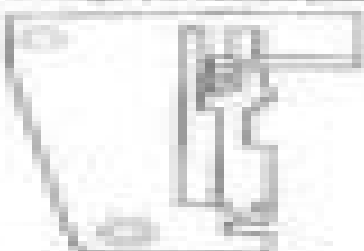

By changing the needle plate to "Narrow hem Needle Plate" and using right needle only, this machine can fabricate both basic flat edges and even a narrow turn (overedge). The width of the narrow overedge is 1.5 mm (about 1/16") and is used for overedging light and medium weight fabrics.

Two variations of the rolled overedge hem can be done with this machine by changing the Presser Foot. Both methods are used with right and medium weight fabrics. Method B, given is better than by using the overedging foot on the wrong side.

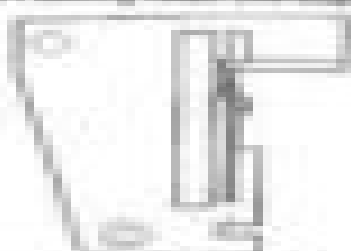

changing the needle plate

This machine comes with a standard overedge needle plate and a right needle.

Change the needle plate when sewing rolled overedges.

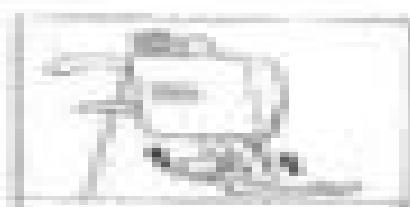

Standard Overedge
Needle Plate

Narrow Hem
Needle Plate

1. Turn presser footplate.
2. Turn hand wheel backward (you will see it on the right side).
3. Loosen the top bar.
4. Other side of the upper finger.

5. Open Extension Table and Foot. (See page 25)
6. Loosen the foot side screw.

7. Lift the Needle Plate off and replace with Narrow Hemming Plate. (The new top thread is not caught under foot.)

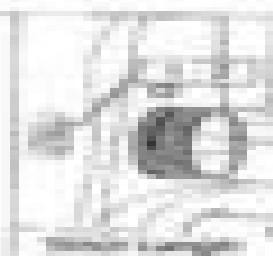

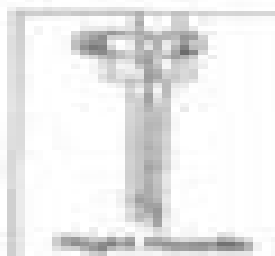

8. Tighten the foot side screw. (Foot now open.)

setting controls

Set the controls as follows:

1. Use right needle only. (Remove the left needle.)
2. Fabric: "Fabric A Needle Case".
Name: "Fabric A NEEDLE, Thread: A, Foot: A, Sewing".
Caution: For sewing medium weight and heavy fabric for overedging light and medium weight fabric.
3. Stitch Length: 2 mm.
For which length: between 1 and 2 mm.
4. Needle Position: Right.
This means with no sewing overedging to make 1.5 mm (about 1/16").
Turn wheel backward and observe that the left side of lower plate (the footplate) is aligned with the top of the narrow hem needle plate. (See page 25)
