improves their vocal tone and breathing This course seeks to improve your vocal fitness so that you can have a better foundation on which to sing your own style Once you create a strong reliable vocal sound you can add your style of music to it How long does it take to see improvement When a singer commits to practicing this vocal technique correctly with thoughtfulness discipline and patience the time they invest will pay them back many times over The process of singing and speaking is an ingrained habit so consistent and deliberate practicing of the vocal exercises is required to allow the muscles to learn new form and position You can expect measurable improvement as long as you take this approach and practice consistently
