you'll find out how to get your document based data including media files and even relational data working with iCloud. As you learn each new technique you'll use it to synchronize yet another module of the book's sample app, *Grocery*, a simple shopping list that can be shared between two or more devices. You'll learn how to handle the kinds of conflicts likely to occur when you build apps that keep themselves in sync across phones and tablets as well as how to deal with the notifications used by iCloud to broadcast changes as they occur. As devices proliferate, synchronization is more important than ever. When you finish this book, you'll know how to make it a part of your own applications. What You Need You should have Xcode 4.6.2 and iOS SDK 6.0 installed on your workstation. To write apps that interact with iCloud, you need to be a registered Apple developer. To test the synchronization of iCloud applications that you write, you'll need two iOS devices, either of which can be an iPhone, iPod, or iPad.
