## **Max Streaming Prices:**

*Managerial Accounting* Jerry J. Weygandt, Paul D. Kimmel, Jill E. Mitchell, 2025-01-22 Managerial Accounting 10th Edition by Jerry Weygandt, Paul Kimmel, and Jill Mitchell provides a practical introduction to managerial accounting with a hands-on active learning experience to improve student understanding, retention, and engagement. Students work through integrated practice at the point of learning with real world connections and high quality assessment ensuring they learn concepts more efficiently and understand the why and how of accounting application. In addition, Managerial Accounting 10th Edition includes a variety of hands-on activities and resources that enhance practical learning and key skills including running cases, various data analytics assignments, and coverage of leading industry topics. These resources help develop critical thinking and business decision making skills preparing students for future job success no matter what path they take.

## **Illegal Online**

**File Sharing, Decision-Analysis, and the Pricing of Digital Goods** Michael I. C. Nwogugu, 2016-11-03 Illegal online file sharing costs companies tens of billions of dollars of lost revenues around the world annually and results in lost productivity, various psychological issues, and significant reduction of incentives to create and innovate. Legislative, technical, and enforcement efforts have failed. This book presents psychological theories about why people illegally share files online, analyzes and characterizes optimal sanctions for illegal online file sharing, introduces new models for pricing of network access and digital content to help reduce illegal online file sharing, introduces new content control and P2P systems, and explains why game theory does not work in pricing of network access.

**Big Data Management** Fausto Pedro García Márquez, Benjamin Lev, 2016-11-15 This book focuses on the analytic principles of business practice and big data. Specifically, it provides an interface between the main disciplines of engineering technology and the organizational and administrative aspects of management, serving as a complement to books in other disciplines such as economics, finance, marketing, and risk analysis. The contributors present their areas of expertise together with essential case studies that illustrate the successful application of engineering management theories in real life examples.

**Media Libraries in an Age of Unending Consumption** Mike Van Esler, 2023-10-24 As the home video market upended traditional film industry models, media libraries emerged as important sources of ancillary revenue. The inflection point for media library exploitation came in 2007 when Netflix launched its streaming service, relying on extensive licensing of film and television libraries to grow its subscriber base. In this book, Mike Van Esler examines how media libraries and business models have evolved since the home video era, with particular emphasis placed on the streaming age of the past fifteen years. Van Esler argues that media libraries have grown beyond their usages from the pre-home video era to become central to today's corporate media strategy. By studying the ways in which media library exploitation has scaled up since the turn of the new millennium, the author identifies insights into larger media industry trends. Ultimately, this book explores the intersection of corporate media, independent distributors, private equity, tech companies, and audiences. Scholars of media studies, business, and sociology will find this book of

particular interest Business 2.0 ,2000 Media Today Joseph Turow,2026-03-05 This ninth edition of Joseph Turow's pathbreaking media textbook uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world. It teaches students to think critically about the role of media and what these changes mean for their lives. The book's media systems approach helps students to look carefully at how media content is created, distributed and exhibited in the new world that the digital revolution has created. From news media to video games and social networking to mobile platforms and streaming, it provides students with the tools they need to understand and critique the media they encounter and consume. The first part examines the media world as a whole while the second delves deep into key media industries such as the movie, television and video streaming and video game industries. This new edition includes critical expanded coverage of social media economies, cross border media issues, the rise of news influencers and subscription platforms and the growing use of predictive and generative artificial intelligence, as well as brand new case studies and updated figures, tables and pedagogy, including key terms and further activities. Media Today is an excellent introduction to the world of media in the digital age, perfect for students seeking a solid grounding in media studies. Extensive pedagogical materials also make this a highly teachable book well suited to the classroom. The accompanying website has also been updated with new student and instructor resources, including chapter recaps, recommended readings and instructor's manual.

**- Challenges for Higher Education** Michael E. Auer, Hanno Hortsch, Oliver Michler, Thomas Köhler, 2022-01-27 This book presents recent research on interactive collaborative learning. We are currently witnessing a significant transformation in the development of education and especially post secondary education. To face these challenges, higher education has to find innovative ways to quickly respond to these new needs. On the one hand, there is a pressure by the new situation in regard to the COVID pandemic. On the other hand, the methods and organizational forms of teaching and learning at higher educational institutions have changed rapidly in recent months. Scientifically based statements as well as excellent experiences best practice are absolutely necessary. These were the aims connected with the 24th International Conference on Interactive Collaborative Learning (ICL2021) which was held online by Technische Universität Dresden, Germany, on 22-24 September 2021. Since its beginning in 1998, this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education. Nowadays the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy. In this way, we try to bridge the gap between pure scientific research and the everyday work of educators. This book contains papers in the fields of Teaching Best Practices, Research in Engineering Pedagogy, Engineering Pedagogy, Education, Entrepreneurship in
