In this volume an eminent team of political theorists and historians of ideas have been brought together to reassess the impact on the subject of the pioneering work of Hans Baron 1966 and J G A Pocock 1975 creating a fresh intellectual landscape in which Renaissance civic humanism can be discussed. Drawing on a wide range of political and historical texts this book evaluates civic humanism in the light of the emergence of oligarchy, imperialism, patronage politics and the Medici ascendancy in Florence in the 14th to 16th centuries. It proposes new understandings of the evolution of important republican concepts such as liberty, the rule of law, virtue and the common good.
