The Critics Say... Matt Windman, 2016-05-04 What will happen to the theater when there are no more critics With the decline of print media and the rise of online journalism theater critics are facing hard times As their influence fades will the industry they cover be adversely affected or can bloggers and message boards fill the void Can a new economic model be created for theater criticism How can critics lucky enough to still have jobs stay relevant in the age of social media Speaking of which what does a theater critic really do and how do you become one In this book Matt Windman a theater critic himself interviews more than 50 critics from New York and around the country including Ben Brantley Charles Isherwood John Lahr Terry Teachout Linda Winer Chris Jones David Cote John Simon and Peter Filichia They discuss their long careers and the nightly process of evaluating plays and musicals and offer their thoughts on the future of the profession

Extremist Propaganda in Social Media Michael Erbschloe, 2018-06-28 Extremist Propaganda in Social Media A Threat to Homeland Security presents both an analysis of the impact of propaganda in social media and the rise of extremism in mass society from technological and social perspectives The book identifies the current phenomenon what shall be dubbed for purposes of this book Blisstopian Societies characterized in the abiding ignorance is bliss principle whereby a population is complacent and has unquestioning acceptance of a social doctrine without challenge and introspection In these subcultures the malleable population self select social media content news and propaganda delivery mechanisms By doing so they expose themselves only to content that motivates reinforces and contributes to their isolation alienation and self regulation of the social groups and individuals In doing this objective news is dismissed fake or news otherwise intended to misinform reinforces their stereotyped beliefs about society and the world around them This phenomenon is unfortunately not fake news but a real threat to which counterterrorism intelligence Homeland Security law enforcement the military and global organizations must be hyper vigilant of now and into the foreseeable future Chapters cite numerous examples from the 2016 political election the Russia investigation into the Trump Campaign ISIS domestic US terrorists among many other examples of extremist and radicalizing rhetoric The book illustrates throughout that this contrived and manufactured bliss has fueled the rise and perpetuation of hate crimes radicalism and violence in such groups as ISIS Boko Haram Neo Nazis white separatists and white supremacists in the United States in addition to perpetuating ethnic cleansing actions around the world This dynamic has led to increased political polarization in the United States and abroad while furthering an unwillingness and inability to both compromise or see others perspectives further fomenting insular populations increasing willing to harm others and do violence Extremist Propaganda in Social Media relates current Blisstopian practices to real world hate speech and violence connecting how such information is consumed by groups and translated into violent action The book is an invaluable resources for those professionals that require an awareness of social media radicalization including social media strategists law enforcement Homeland Security professionals military planners and operatives anyone tasked with countering combat

such violent factions and fringes in conflict situations **Text + Field** Sara L. McKinnon, Robert Asen, Karma R. Chávez, Robert Glenn Howard, 2016-06-01 Rhetorical critics have long had a troubled relationship with method viewing it as at times opening up provocative avenues of inquiry and at other times as closing off paths toward meaningful engagement with texts Text Field shifts scholarly attention from this conflicted history looking instead to the growing number of scholars who are supplementing text based scholarship by venturing out into the field where rhetoric is produced enacted and consumed These field based practices involve observation ethnographic interviews and performance They are not intended to displace text based approaches rather they expand the idea of method by helping rhetorical scholars arrive at new and complementary answers to long standing disciplinary questions about text context audience judgment and ethics The first volume in rhetoric and communication to directly address the relevance processes and implications of using field methods to augment traditional scholarship Text Field provides a framework for adapting these new tools to traditional rhetorical inquiry Aside from the editors the contributors are Roberta Chevrette Kathleen M de On s Danielle Endres Joshua P Ewalt Alina Haliliuc Aaron Hess Jamie Landau Michael Middleton Tiara R Na puti Jessy J Ohl Phaedra C Pezzullo Damien Smith Pfister Samantha Senda Cook Lisa Silvestri and Valerie Thatcher **Reviews in Frontiers in Nephrology** Eleni Frangou, Motonobu Nakamura, Sayna Norouzi, 2025-03-10 Frontiers in Nephrology is delighted to present the Reviews in series of article collections Reviews in Frontiers in Nephrology will publish high quality scholarly review papers on key topics in nephrology It aims to highlight recent advances in the field whilst emphasizing important directions and new possibilities for future inquiries We anticipate the research presented will promote discussion in the nephrological community that will translate to best practice applications in clinical public health and policy settings The Reviews in Frontiers in Nephrology collection welcomes full length mini or systematic review papers New articles will be added to this collection as they are published National Cyber Emergencies Greg Austin, 2020-01-23 This book documents and explains civil defence preparations for national cyber emergencies in conditions of both peace and war The volume analyses the escalating sense of crisis around state sponsored cyber attacks that has emerged since 2015 when the United States first declared a national emergency in cyberspace It documents a shift in thinking in the USA from cooperative resilience oriented approaches at national level to more highly regulated state led civil defence initiatives Although the American response has been mirrored in other countries the shift is far from universal Civil defence strategies have come into play but the global experience of that has not been consistent or even that successful Containing contributions from well placed scholars and practitioners this volume reviews a selection of national experiences from the USA Australia India China Estonia and Finland and a number of key thematic issues information weapons alliance coordination and attack simulations These demonstrate a disconnect between the deepening sense of vulnerability and the availability of viable solutions at the national level Awareness of this gap may ultimately lead to more internationally oriented cooperation but the trend for now appears to be more conflictual

and rooted in a growing sense of insecurity This book will be of much interest to students of cyber security homeland security disaster management and international relations as well as practitioners and policy makers Hotel & Catering Review
