**Scholarship Reconsidered** Ernest L. Boyer,Drew Moser,Todd C. Ream,John M. Braxton,2015-10-06 Shifting faculty roles in a changing landscape Ernest L Boyer's landmark book Scholarship Reconsidered Priorities of the Professoriate challenged the publish or perish status quo that dominated the academic landscape for generations His powerful and enduring argument for a new approach to faculty roles and rewards continues to play a significant part of the national conversation on scholarship in the academy Though steeped in tradition the role of faculty in the academic world has shifted significantly in recent decades The rise of the non tenure track class of professors is well documented If the historic rule of promotion and tenure is waning what role can scholarship play in a fragmented unbundled academy Boyer offers a still much needed approach He calls for a broadened view of scholarship audaciously refocusing its gaze from the tenure file and to a wider community This expanded edition offers in addition to the original text a critical introduction that explores the impact of Boyer's views a call to action for applying Boyer's message to the changing nature of faculty work and a discussion guide to help readers start a new conversation about how Scholarship Reconsidered applies today
