Brains and Machines: Towards a unified Ethics of AI and Neuroscience ,2024-05-24 Brains and Machines Towards a unified Ethics of AI and Neuroscience provides a comprehensive overview of concepts and ethical issues at the intersection of two emerging technological trends in the 21st century AI and neurotechnology In line with recent advances across both fields debates about philosophical ethical regulatory and social issues raised by neuroscience and AI have considerably expanded in the past decade Yet despite many intersections and fruitful interactions between the two scientific domains ethical debates about neuroscience and AI have mostly moved in parallel This volume assembles voices from various disciplines to provide a more unified view and offer novel perspectives on two complementary lines of discourse The volume provides scientific background by outlining the state of the art of applying AI in the field of neuroscience and discussing instances where findings and debates from neuroscience provide cues and inspiration to the study of AI Based on this background the book then addresses conceptual frameworks identifies ethical challenges at the intersection of neuroscience and AI and highlights challenges and opportunities of finding common ground in interdisciplinary settings Provides complementary perspectives from international experts on neuroscience AI and ethics Searches for common ground in debates that have in the past often moved in parallel Provides an introduction into current ethical debates at the intersection of two fast moving key technologies Management John R. Schermerhorn, Jr.,Daniel G. Bachrach,2025-09-30 Inspire students to be responsible and self aware decision makers Management 16th Edition supports active and engaged course environments while centralizing new topics such as artificial intelligence diversity equity inclusion and social impact With a focus on career application the underlying goal is to translate foundational theories into lasting tools for students as they move beyond the classroom where their skills will be put to the test **The Coming Singularity** Gary A. Freitas,2022-08-31 As we approach 2050 it is projected that human consciousness will encounter a superior intelligence for the very first time artificial machine intelligence It is important for us to understand the evolutionary impact of this event but also that we are being altered from the inside out for the singularity to arise Are we ready Will we be adaptive How will we change The Coming Singularity explores the psychological impact of the changes coming our way and the many adaptations we will have to make We are transitioning to a world of one degree of separation with only the illusion of privacy autonomy and anonymity All of us are undergoing a transition to an electronic identity one that can reach back and change the real you The question going forward will be who is the real you A cluster of psychological symptoms are evolving from our technology interface Identity Diffusion Its key feature is the de realization of life Direct brain to technology interfaces will soon render our brains an open source forum We need to discuss who is in there and why The impact of e technology on human identity will be profound but it is also a prerequisite for machine intelligence to arise We need to discuss this We humans reside in complex dynamical networks The goal of artificial intelligence will be to evolve and stabilize these networks And we may not
