NIH Guide for Grants and Contracts National Institutes of Health (U.S.),1990 **Agenda Setting: A Wise Giver's**
Guide to Influencing Public Policy John J. Miller,Karl Zinsmeister,Ashley May,2015-03-07 Donating money to modify
public thinking and government policy has now taken its place next to service centered giving as a constructive branch of
philanthropy Many donors now view public policy reform as a necessary adjunct to their efforts to improve lives directly This
is perhaps inevitable given the mushrooming presence of government in our lives In 1930 just 12 percent of U S GDP was
consumed by government by 2012 that had tripled to 36 percent Unless and until that expansion of the state reverses it is
unrealistic to expect the philanthropic sector to stop trying to have a say in public policies Sometimes it s not enough to build
a house of worship one must create policies that make it possible for people to practice their faith freely within society
Sometimes it s not enough to pay for a scholarship one must change laws so that high quality schools exist for scholarship
recipients to take advantage of Yet public policy philanthropy has special ways of mystifying and frustrating practitioners It
requires understanding of governmental practice interpretation of human nature and some philosophical perspective Public
policy philanthropists may encounter opponents operating from different principles who view them as outright enemies
Moreover public policy struggles never seem to end victories one year become defeats the next followed by comebacks then
setbacks and on and on This book was written to help donors navigate all of those obstacles It draws on deep history and rich
interviews with the very best practitioners of public policy philanthropy in America today Whatever your aspirations for U S
society and governance this guide will help you find the best ways to make a difference NIH Guide for Grants and
