*The TKT Course Modules 1, 2 and 3* Mary Spratt, Alan Pulverness, Melanie Williams, 2011-01-13 This is the official preparation course for teachers and trainee teachers preparing for the Cambridge Teaching Knowledge Test TKT modules 1, 2 and 3

Assessing Language Teachers' Professional Skills and Knowledge Rosemary Wilson, Monica Poulter, 2015-01-31 The growth in English language teaching worldwide and the related increase in teacher training programmes of all kinds highlight the need for greater accountability in the assessment of teachers. The need for formal summative assessment has taken on greater importance in training programmes and requires procedures which do not always sit easily with the development process while transparency of assessment procedures is also increasingly demanded by the candidates themselves. This edited volume discusses key issues in assessing language teachers' professional skills and knowledge and provides case study illustrations of how teacher knowledge and teaching skills are assessed at pre-service and in-service levels within the framework of the Cambridge English Teaching Qualifications. The volume provides discussion of ways in which the changing nature of English language teaching has impacted on teacher education and assessment, examples of specific assessment procedures for both teaching knowledge and practical classroom skills, accounts of the ways in which the Cambridge English Teaching Qualifications have been integrated into and adapted for local contexts. This is the first volume of its kind wholly dedicated to language teacher assessment and as such will be of interest to language teachers and teacher educators as well as to researchers and postgraduate students.

**How to Train Language Teacher Trainers** Pierangela Diadori, 2013-01-11 In recent decades considerable European investment has been devoted to the training of language assistants, full-time teaching staff and mentors while the new figure of the professional language teacher trainer (LTT) has emerged. It is becoming increasingly important that future LTTs are not simply more expert teachers or scholars competent in the various relevant disciplines but professionals who are aware of their role, who know the development of teacher training in Europe and beyond and who are able to compare various experiences in different training contexts. This volume is aimed at LTTs who wish to become aware of the main issues, tools and research now available for their daily practice and professional role and for lecturers who teach prospective language teachers. Language teachers with long experience might also find useful information on how they can develop into LTTs. The book also offers an overview of recent European projects that could be relevant to principals of language departments who are involved in the assessment and performance management of their staff. Finally, the volume contains research suggestions for academic and PhD students who are investigating current issues in language teaching methodology, teacher training, lifelong learning and professional development. Contributors include Merc Bernaus, Nick Charge, Jim Cummins, Pierangela Diadori, Michael Kelly, Hanna Komorowska, Laura Muresan, Joe Navarro, Brian North, Mario Pace, Fiorella Perotto and Richard Rossner.
