silk that you intend to use for the embroidery work While not essential it is suggested that the feed and the throat plate be covered with a plate made for the purpose using No 32589 for Machine No 66 1 No 8335 for Machine No 27 4 No 15259 for Machine No 15 30 and No 208733 for Machine No 9W These cover plates can be obtained by mail or otherwise from any Singer shop Do not remove the throat plate nor disturb the feed dog because it is essential that its position should remain as originally fixed whenever the machine is used for family sewing Place a small iron washer or a spool weight on the spool to retard the movement of the upper thread A spool weight No 9537 can be obtained at any Singer shop Preparation of hoops and placing material therein Take the two hoops constituting the embroidery frame and wind them with narrow strips of white muslin covering them diagonally with one or more layers of the cloth according to the thickness of the material on which the embroidery is to be done as this must be held stretched firmly between the hoops Figure 1 To put the material in the hoops stretch it smoothly over the larger hoop then press the smaller hoop firmly down into the larger one If the material be not firmly and smoothly stretched over the frame tighten it as shown in Fig 1 being very careful not to stretch it on the bias but to pull it with the thread of the goods doing the work slowly and carefully If the material be so delicate that it is liable to be injured by the hoops notwithstanding the muslin padding place tissue paper or cotton between them About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com
