choosing needle and thread

The needle and thread you choose will depend upon the fabric being stitched. The table at left is a practical guide to needle and thread selection. Refer to it before starting a sewing project. Be sure to use the same size and type of thread in both needle and bobbin. For best results use a new Singer needle.

threading the machine

Your sewing machine sews with two threads. One thread comes from the spool on top through the needle. The second thread comes from the transparent bobbin in the machine. It is best to wind the bobbin before threading the needle.

THE BOBBIN THREAD

Winding the Bobbin

1. Raise the foot and turn hand-wheel towards you until needle is at its highest position.
2. Loosen handwheel knob by turning it towards you with the right hand while holding hand-wheel with the left hand.
3. Open slide plate and lift out bobbin.
