Sister Churches American Congregations And Their Partners Abroad:

Sister Churches Janel Kragt Bakker,2014 In Sister Churches Janel Bakker draws on extensive fieldwork and interviews with participants in congregation to congregation partnerships between Western churches and churches in the global South to explore the sister church movement and in particular its effects on American churches Partners, Sisters, and Twins Danny Hunter,2023-07-27 Congregations are increasingly developing partnerships as a way of engaging directly in global missions One of the most common ways they do this is forming relationships with congregations in other parts of the world This book looks at the reasons that churches seek out missions partners how the partnership phenomenon developed and what beliefs concepts structures and practices inform the healthiest mission partnerships With insights drawn from a survey of churches from across the country and around the world this book provides data driven insights to guide the practice of international congregational partnerships **American Missionaries, Korean Protestants, and the Changing Shape of World Christianity, 1884-1965** William Yoo,2016-10-04 This book examines the partnerships and power struggles between American missionaries and Korean Protestant leaders in both nations from the late 19th century to the aftermath of the Korean War Yoo analyzes American and Korean sources including a plethora of unpublished archival materials to uncover the complicated histories of cooperation and contestation behind the evolving relationships between Americans and Koreans at the same time the majority of the world Christian population shifted from the Global North to the Global South American and Korean Protestants cultivated deep bonds with one another but they also clashed over essential matters of ecclesial authority cultural difference geopolitics and women s leadership This multifaceted approach incorporating the perspectives of missionaries migrants ministers diplomats and interracial couples casts new light on American and Korean Christianities and captures American and Korean Protestants mutually engaged in a global movement that helped give birth to new Christian traditions in Korea created new transnational religious and humanitarian partnerships such as the World Vision organization and transformed global Christian traditions ranging from Pentecostalism to Presbyterianism Christianity in India Rebecca

Samuel Shah,Joel Carpenter,2018-11-08 Christianity has been present in India since at least the third century but the faith remains a small minority Even so Christianity is growing rapidly in parts of the subcontinent and has made an impact far beyond its numbers Yet Indian Christianity remains highly controversial and it has suffered growing discrimination and violence This book shows how Christian converts and communities continue to make contributions to Indian society even amid social pressure and violent persecution In a time of controversy in India about the legitimacy of conversion and the value of religious diversity Christianity in India addresses the complex issues of faith identity caste and culture It documents the outsized role of Christians in promoting human rights providing education and healthcare fighting injustice and exploitation and stimulating economic uplift for the poor Readers will come away surprised and sobered to learn how these active initiatives often invite persecution today The essays draw on intimate and personal encounters with Christians in India

past and present and address the challenges of religious freedom in contemporary India *Faith and Community* Rebecca A. Glazier, 2024-07-05 Examines the impact of congregational community engagement efforts for places of worship their members and democracy Regulating Freedom of Religion Hans G. Kippenberg, 2021-06-17 Freedom of Religion declared in Art 18 of the Universal Declaration of Human Rights 1948 concerned not only individuals but included the moral right of religious communities to manifest religion in public The International Covenant on Political and Civil Rights 1966 1976 made it a legal right and added an article that allowed states to restrict that freedom provided it violates national laws and public order This article resulted in an ongoing process of legal proceedings The Human Rights Committee of the UN and the European Court of Human Rights have made judgments that allowed a plurality of religions in public even in cases where there is a state religion A declaration of the UN against intolerance and discrimination empowered religious communities to establish charitable institutions to disseminate internationally relevant publications and to receive financial contributions and made them powerful social and political actors The same declaration defended the principles of free choice of a religion and of tolerance among citizens of different faiths This book investigates the most relevant rulings concerning the religious rights of individuals and communities It fills a gap in the study of religious communities in the globalized world and will be of interest to anyone involved in historical social legal and religious studies It will help the reader to understand the paradox of the power of religious communities in a secular and globalizing world

The Practice of Mission in Global Methodism

David W. Scott, Darryl W. Stephens, 2021-04-19 This book brings together Methodist scholars and reflective practitioners from around the world to consider how emerging practices of mission and evangelism shape contemporary theologies of mission Engaging contemporary issues including migration nationalism climate change postcolonial contexts and the growth of the Methodist church in the Global South this book examines multiple forms of mission including evangelism education health and ministries of compassion A global group of contributors discusses mission as no longer primarily a Western activity but an enterprise of the entire church throughout the world This volume will be of interest to researchers studying missiology evangelism global Christianity and Methodism and to students of Methodism and mission

God's

Internationalists David P. King, 2019-04-11 Over the past seventy years World Vision has grown from a small missionary agency to the largest Christian humanitarian organization in the world with 40 000 employees offices in nearly one hundred countries and an annual budget of over 2 billion While founder Bob Pierce was an evangelist with street smarts the most recent World Vision US presidents move with ease between megachurches the boardrooms of Fortune 500 companies and the corridors of Capitol Hill Though the organization has remained decidedly Christian it has earned the reputation as an elite international nongovernmental organization managed efficiently by professional experts fluent in the language of both marketing and development God's Internationalists is the first comprehensive study of World Vision or any such religious humanitarian agency In chronicling the organization's transformation from 1950 to the present David P King approaches

World Vision as a lens through which to explore shifts within post World War II American evangelicalism as well as the complexities of faith based humanitarianism Chronicling the evolution of World Vision's practices theology rhetoric and organizational structure King demonstrates how the organization rearticulated and retained its Christian identity even as it expanded beyond a narrow American evangelical subculture King's pairing of American evangelicals interactions abroad with their own evolving identity at home reframes the traditional narrative of modern American evangelicalism while also providing the historical context for the current explosion of evangelical interest in global social engagement By examining these patterns of change God's Internationalists offers a distinctive angle on the history of religious humanitarianism
