An Introduction to the Literature of eSwatini Kerry Vincent,2020-10-21 This book is the first comprehensive introduction to the literature of eSwatini It details a literary trajectory that begins with renditions of the country by early travelers and settlers and follows with the emergence of a national literature that is marked by early oral influences and molded by unique sociopolitical interests Along the way the author considers how contemporary writing by visitors expatriates and journalists have salvaged and recycled earlier images and attitudes through a series of representational and rhetorical practices In particular the lingering influence of colonial discourse is explored in the context of the nation s pivotal incwala ritual A chapter on Hilda Kuper that situates her fiction and drama between outsider and insider accounts is followed by the final two chapters that trace the development of anglophone and siSwati writing and identify themes arising from the major literary genres produced by local authors The concluding section features a comprehensive registry of writers with brief summaries of their works

Swanepoel, 1993 Customary Nationalism in Crisis Vito Laterza, Casey Golomski, 2025-11-03 This book examines the aftermath of eSwatini's fiftieth anniversary of independence and the COVID 19 pandemic when many citizens of this last absolute monarchy in Africa took to their communities in unprecedented protests for democratic reform. For raising their voices they were met with brutal police violence. Customary Nationalism in Crisis offers snapshots of life in the Kingdom leading up to and in the aftermath of this epic moment, providing lessons to the world on the power of the government to shape our lives through the guise of custom and tradition and the power of ordinary people to resist this. Through a range of research written primarily by scholars from eSwatini, the book shows how ordinary women, men, and young people redefine language and their identities, ethnic, racial, and gender, and question what it means to be a citizen from their classrooms to clinics and from their workplaces to the halls of Parliament. Customary Nationalism in Crisis shows that despite the persistence of authoritarianism, citizens also adapt over the long term to survive and thrive. This volume will appeal to scholars and students in African studies, political science, anthropology, sociology, and gender studies, as well as policymakers, human rights advocates, and development practitioners interested in southern Africa. The chapters in this volume were originally published as a special issue of *Journal of Contemporary African Studies*.

The Routledge Handbook of Corpus Translation Studies Defeng Li, John Corbett, 2024-10-28 This Handbook offers a comprehensive grounding in key issues of corpus-informed translation studies while showcasing the diverse range of topics, applications, and developments of corpus linguistics. In recent decades, there has been a proliferation of scholarly activity that applies corpus linguistics in diverse ways to translation studies (TS). The relative ease of availability of corpora and text analysis programs has made corpora an increasingly accessible and useful tool for practising translators and for scholars and students of translation studies. This Handbook first provides an overview of the discipline and presents detailed chapters on specific areas such as the design and analysis of multilingual corpora, corpus analysis of the language of translated texts, the use of corpora to analyse literary translation corpora, and critical translation studies, and the application of corpora in specific fields such as bilingual lexicography, machine translation, and cognitive translation studies. Addressing a range of core thematic areas in translation studies, the volume also covers the role corpora play in translator education and in aspects of the study of minority and endangered languages. The authors set the stage for the exploration of the intersection between corpus linguistics and translation studies, anticipating continued growth and refinement in the field. This volume provides an essential orientation for translators and TS scholars, teachers, and students who are interested in learning the applications of corpus linguistics to the practice and study of translation.
