*The Vichy Past in France Today* Richard J. Golsan, 2016-12-20 *The Vichy Past in France Today* Corruptions of Memory is an interdisciplinary study examining the continuing impact of the memory of Vichy and World War II in French politics literature intellectual discourse and debates and the law It argues that despite multiple efforts in all of these areas to come to terms with France's World War II past and to fulfill a duty to memory to Vichy's Jewish victims the nation is still not reconciled to the so called Dark Years even seventy years after the Liberation Indeed the Vichy past occupies important recent works of literature inflects much political discussion and debate often serving as a metaphor for political and moral evil Its legacies include the passage of problematic laws that dangerously distort and simplify complex historical realities Chapter I examines the historical and legal legacies of the 1990s trials for crimes against humanity and traces their impact on the so called memorial laws of the new century Chapter II revisits the 2002 presidential elections in France and the impact of Jean Marie Le Pen's first round victory on intellectual and cultural debate Chapter III explores Alain Badiou's controversial characterization of Sarkozy's presidential victory as a return of Petainism in *The Meaning of Sarkozy* The discussion is cast against the backdrop of Badiou's radical political thought and Sarkozy's political uses and misuses of the World War II past Chapter IV examines the controversy surrounding the publication of Jonathan Littell's *The Kindly Ones* 2006 and its morally and historically problematic portrayal of an unrepentant Nazi and SS officer Chapter V discusses Yannick Haenel's fictional recreation of the Polish resistance hero Jan Karski *The Messenger* 2009 in his novel by that name and the polemics between the novel's author and the maker of the classic Holocaust documentary film *Shoah* Claude Lanzmann The Conclusion first explores the ways in which the memory of Vichy inflects literary and political reflections on the recent terrorist attacks in France It also examines strategies proposed by French philosophers for moving beyond the impasse of Vichy's memory in France before concluding with a different strategy proposed by the author for the French nation to move beyond the memory of the Dark Years **Faith, Reason, and Political Life Today** Dale

McConkey, 2001-03-21 This rich and varied collection of essays addresses some of the most fundamental human questions through the lenses of philosophy literature religion politics and theology Peter Augustine Lawler and Dale McConkey have fashioned an interdisciplinary consideration of such perennial and enduring issues as the relationship between nature and history nature and grace reason and revelation classical philosophy and Christianity modernity and postmodernity repentance and self limitation and philosophy and politics These tensions are explored through the works of such eminent thinkers as Aristotle Augustine and Tocqueville but the contributors engage a wide variety of texts from popular culture American literature Flannery O'Connor receives notable attention and social theory to create a remarkably comprehensive if far from harmonious introduction to political philosophy today International Perspectives on Pragmatism Peter H. Hare, J.K. Swindler, Michel Weber, 2008-12-18 *International Perspectives on Pragmatism* combines in a very appealing manner

a pragmatist approach of democracy with practical politics and history of ideas The result is a meditation on contemporary society while in the background there is a continuous debate on the concept of democracy as defining mark of Western culture Both its critics and its supporters talk about a decay of democracy which would not justify an idealist perspective anymore Arguments for this transpire from both the practical politics section of the volume as well as from the second part that focuses more on the theoretical side of the discussion on democracy On a more practical direction there are contributors maintaining the idea that democracy is corrupt and examples from today's world are offered while the theoretical perspective brings up the Rortian view manifested through the well known debate between the foundationalist and the anti foundationalist perspectives There's also a very interesting debate on community and art from a pragmatist point of view which offers the volume a special serenity

**Migrant ou la vérité devant soi** Benoît Bourguine, Joseph Famerée, Paul Scolas, 2019-07-11 Les migrations d'aujourd'hui et d'hier ne seraient-elles pas comme un lieu de relation Le fait que les humains migrent tissent des liens aussi bien et parfois aussi mal avec ceux qui sont loin qu'avec ceux qui sont proches ne manifeste-t-il pas quelque chose d'essentiel sur ce qu'est être et devenir humain Tout humain n'est-il pas un migrant et ne doit-il pas l'être pour se trouver lui-même dans sa vérité profonde

*Revolutionary Commerce* Paul Cheney, 2010-03-16 Combining the intellectual history of the Enlightenment Atlantic history and the history of the French Revolution Paul Cheney explores the political economy of globalization in eighteenth century France The discovery of the New World and the rise of Europe's Atlantic economy brought unprecedented wealth It also reordered the political balance among European states and threatened age-old social hierarchies within them In this charged context the French developed a science of commerce that aimed to benefit from this new wealth while containing its revolutionary effects Montesquieu became a towering authority among reformist economic and political thinkers by developing a politics of fusion intended to reconcile France's aristocratic

society and monarchical state with the needs and risks of international commerce The Seven Years War proved the weakness of this model and after this watershed reforms that could guarantee shared prosperity at home and in the colonies remained elusive Once the Revolution broke out in 1789 the contradictions that attended the growth of France's Atlantic economy helped to bring down the constitutional monarchy Drawing upon the writings of philosophes diplomats consuls of commerce and merchants Cheney rewrites the history of political economy in the Enlightenment era and provides a new interpretation of the relationship between capitalism and the French Revolution

**Is There Still a West?** William Anthony Hay, Harvey Sicherman, 2007 Scholarly essay collection that considers whether the West is still a major force in international affairs or whether we face a new world of competing states and shifting alliances In proposing possible counterterrorism strategies to define a shared Western security policy they offer an alternative to neoconservative and liberal viewpoints Provided by publisher

**Beyond Radical Secularism** Pierre Manent, 2016 This is the book that took France by storm upon its publication in the fall of 2015 It was praised by some for its rare combination of tough mindedness and moderation and attacked by others for suggesting that radical secularism could not provide the political and spiritual resources to address the Islamic challenge The book is even more relevant after the Parisian terror attacks of November 13 2015 It is a book that combines permanence and relevance that addresses a pressing political and civilizational problem in a manner that will endure Responding to the brutal terror attacks in France in January 2015 Pierre Manent has written a learned passionate essay that reflects broadly and deeply on the political and religious situation of France and Europe He freely acknowledges that the West is at war with fanatics who despise liberal and Christian civilization That war must be conducted with prudent tough mindedness At the same time serious thought must be given to the Islamic question at home and abroad Concentrating on the French situation Manent suggests that French Muslims are not entering an empty nation defined by radical secularism and human rights alone France has a secular state as do all the nations of the contemporary West That is a heritage to be cherished But the Islamic question will not be solved by transforming Muslims into modern secularists devoid of all religious sensibility It must be remembered that France is also nation of a Christian mark with a strong Jewish presence both of which enrich its spiritual and political life Manent proposes a social contract with France's Muslims that is at once firm and welcoming Rejecting radical secularism the effort by certain laicists to completely secularize European society to create a society without religion Manent calls for a defensive policy that will allow Muslims to keep their mores save the integral veil and polygamy In exchange they must accept the fact that they live in a society of a Christian mark and they must stop hiding behind charges of Islamophobia In liberal and Christian Europe there must be total freedom of criticism including criticism of the Islamic religion Muslims must forgo funding from Arab Islamic states not to mention extremist movements and must recognize they are henceforth participants in the common life of the French nation They must become citizens in a nation that does more than defend individual or communal rights as crucial as those rights are **Beyond Radical Secularism**

also provides a luminous reflection on the necessary coexistence of the liberal state and a nation of a Jewish and Christian mark in a Western liberty worthy of the name Europeans have succumbed to passivity in no small part because they reject the nation which is the indispensable framework of democratic self government They no longer have confidence in human action in the elemental human capacity to put reasons and actions in common That faith in individual and collective action ultimately depends on belief in the primacy of the Good or in theological terms in faith in a benevolent and Providential God The West at its best combined the pride of the citizen and the humility of the believer Europeans and Americans too governed themselves in a certain relation to the Christian proposition The nation was the instrument par excellence for combining the cardinal virtues courage prudence justice moderation and the confidence which is specific to the Christian religion A capacious sense of Europe and the West one that acknowledges its Christian and Jewish mark is ultimately necessary to face the Islamic challenge The Jewish idea of the Covenant provides a powerful reminder of the ultimate ground of democratic self government and of deliberation and action that respect limits while acknowledging the full range of human possibilities in a world where the good is not ultimately without transcendent support Only by recovering something of the European faith in a higher ground of freedom will the nations of Europe be able to muster the realism and the hope necessary meet the challenge of Islam *Chronicles*, 2008 **The Legacy of the French Revolution** Ralph C. Hancock, L Gary Lambert, 1996-04-02

This work aims to clarify the distinctive character of the French Revolution by tracing the philosophical sources of its rhetoric and comparing it to that of the American Revolution *The Public Interest*, 1996 *French Politics, Culture and Society*, 2000 *Honor Among Nations* Donald Kagan, 1998 **Montesquieu and the Spirit of Modernity** David Wallace Carrithers, Patrick Coleman, 2002 Crucial to an understanding of Montesquieu's work is the contrast he drew between ancient and modern mentalities Les politiques grecs he wrote in his classic work *De l'esprit des lois* 1748 qui vivaient dans le gouvernement populaire ne reconnaissaient d'autre force qui pût les soutenir que celle de la vertu Ceux d'aujourd'hui ne nous parlent que de manufactures de commerce de finances de richesses et de luxe même Ancient philosophers had conceptualised model regimes where human beings would flourish in accordance with their natural purposes and potentialities shaped by good laws well obeyed Such moderns as Montesquieu on the other hand ceased to regard the state as a school for morality No longer concerned with improving man's soul politics focused instead on the achievement of liberty security and material prosperity Clearly something novel and distinctive something recognisably modern arose during the period from Machiavelli to Montesquieu A teleological universe suffused with transcendent meaning and purposeful ends was supplanted by a more secular disenchanted world view Both the Christian conception of a life lived in humble devotion to the moral commandments of revealed religion and the classical conception of a virtuous life devoted to ethical perfection were challenged by a new political realism stressing the dominance of the passions over reason and the constructive potential of self interest The authors of the eleven essays comprising this volume explore the complex relations between Montesquieu

and modernity and between Montesquieu and antiquity Assessing the content of his three major works they conclude that whereas the label modern suits Montesquieu he nonetheless retained certain philosophical approaches characteristic of antiquity as well as a high regard for the primacy accorded to politics and philosophy in the classical era     *Political Judgments* Dick Howard, 1996-05 Against the backdrop of the radical change in political conditions since the 1989 revolutions in Eastern Europe noted philosopher and political theorist Dick Howard asks what is modern politics Returning to the historical problems posed by the French and American Revolutions Howard examines the ways that philosophy has tried to understand the contemporary political dilemma He then puts his theory to the test by looking at political problems in Eastern Europe in the European Union and in the United States This collection of essays many available in English for the first time will be useful to philosophers sociologists and political scientists     **East Asian History** ,1995     20th Century Studies ,1973     CURRENT CONTENTS Arts & Humanities October 19,1997 Volume 19 Number 21 ,1997
