Skeptical Engagements:

Skeptical Engagements Frederick C. Crews, 1986 Eleven years ago in *Out of My System* the noted critic Frederick Crews served notice that his Freudian sympathies were being eroded. In his new book Crews shows where that reappraisal took him and why he has come to regard himself as an opponent of all self validating doctrines. The essays collected here are linked by a theme Crews came to understand through trial and error. The fear of facing the world including its works of literature without an intellectual narcotic at hand. Crews himself a former Freudian takes on a host of academic critics and theorists and he does so with vigor and in bitingly effective lucid prose. Booklist The author is provocative about writers from Philip Roth to Erik Erikson and in the process gives us a clear picture of intellectual life warts and all. Kirkus Reviews

Against Freud Todd Dufresne, 2007 *Against Freud* is a highly accessible informative and entertaining examination of Freud's controversial ideas and legacy by the world's most knowledgeable critics of psychoanalysis. Freudians and Schadenfreudians Jeffrey Berman, 2024-08-22 Sigmund Freud can be a polarizing figure, beloved by many and despised by some. Focusing on eight key writers and scholars who either passionately loved or gleefully loathed Freud, this book represents Freud's wide legacy, the reach of his ideas, their controversies, and their ability still to provoke, inspire, confound, outrage, and compel. The book begins by focusing on four highly prolific authors whose admiration for Freud is boundless: Lionel Trilling, Harold Bloom, Kurt R. Eissler, and Peter Gay. Berman then explores four more writers whose aim was not simply to debunk Freud and destroy his monstrous creation but to cast both into hell: D. H. Lawrence, Vladimir Nabokov, Thomas Szasz, and Frederick Crews. Each chapter discusses the author's involvement with Freud, exploring the continuities and discontinuities of his or her writings, as well as offering snapshots of the writers suggesting how their personal and professional lives were inextricably related. Berman draws out some surprising commonalities between the Freudolaters and Schadenfreudians, going on to discuss the current state of psychoanalysis and the psychoanalytic credos by which contemporary analysts live.

Degenerate Moderns E. Michael Jones, 1993 In this groundbreaking new book, Jones shows how some of the major determining leaders in modern thought and culture have rationalized their own immoral behavior and projected it onto a universal canvas. The main thesis of this book is that in the intellectual life, there are only two ultimate alternatives: either the thinker conforms desire to truth or he conforms truth to desire. In the last one hundred years, the western cultural elite embarked upon a project which entailed the reversal of the values of the intellectual life so that truth would be subjected to desire as the final criterion of intellectual value. In looking at recent biographies of such major moderns as Freud, Kinsey, Keynes, Margaret Mead, Picasso, and others, there is a remarkable similarity between their lives and thought. After becoming involved in sexual license early on, they invariably chose an ideology or art form which subordinated reality to the exigencies of their sexual misbehavior. The Skeptical Inquirer, 1986 **Evolution and Literary Theory** Joseph Carroll, 1995 Over the past two decades, poststructuralism in its myriad forms has come to dominate literary criticism.

to the exclusion of virtually any other point of view Few scholars have escaped the coercive authority of its programmatic radicalism In Evolution and Literary Theory Joseph Carroll vigorously attacks the foundational principles of poststructuralism and offers in their stead a bold new theory that situates literary criticism within the matrix of evolutionary theory

The Johns Hopkins Guide to Literary Theory and Criticism Michael Groden, Martin Kreiswirth, 1994 Contains over 200
