Hence young Sri Lankans perceive their country as an unjust and unequal society in which mainstream institutions have failed to address inequalities in the distribution of resources as well as of benefits deriving from economic growth. Against this background *The Challenge of Youth Employment in Sri Lanka* aims to identify ways to improve the opportunities available to new job market entrants by addressing existing inequalities and to help young people more fully realize their potentials. Drawing from original research and a review of existing studies the authors use the 4Es conceptual framework to analyze four key aspects of labor markets: employment creation, employability, entrepreneurship and equal opportunity.
