

It's Monday morning, and during your weekly team meeting, you volunteer to take the lead on an exciting new product development project. After the meeting, a colleague approaches you, and asks whether you would like to generate some ideas together.

What do you do?

Please RANK ORDER the options below, with 1 being what you are most likely to do and 4 being what you are least likely to do.

**1** **B** You immediately agree, and book in some time with your colleague. You know combining your ideas will produce the best result. **1**

**2** **C** You book in some time with your colleague later in the week to discuss any initial ideas you have had. You know their input will add value. **1**

**3** **D** You thank your colleague for their offer, but politely decline. You know that you focus best when working alone, and you will produce better ideas this way. **1**

**4** **A** You thank your colleague, and tell them you will get in touch if you are struggling for ideas. You would prefer to focus on generating your own ideas initially. **1**

Keenan,2005 Soldiers in the 21st century must possess the knowledge skills and other attributes to perform effectively in complex technical information rich environments This study Development of a Prototype Self Assessment Program in Support of Soldier Competency Assessment was conducted as a counterpart to the U S Army Research Institute for the Behavioral and Social Sciences ARI Performance Measures for 21st Century Soldier Assessment PerformM21 PerformM21 is a 3 year

feasibility effort to identify viable approaches for an operational performance assessment system for Army enlisted personnel. In this study the researchers identified the design and content of a self assessment system SAS that would help Soldiers feel confident about testing and inform Soldiers about the junior noncommissioned officer NCO promotion system and help familiarize Soldiers with the duties and responsibilities of NCOs. Information about best practices in the field of self assessment test preparation including what is done in the other Armed Services academies and the test industry was used to develop a prototype SAS that would explore the realm of test preparation functions, actions, and items that a typical Soldier would encounter during this phase. The prototype SAS reflects PerformM21 test parameters; it is web based, targeted to E4 Soldiers, and focuses on the Army wide core assessment. P i      **West's Business Law** Gaylord A.
