Skin In Psychoanalysis:

Skin, Culture and Psychoanalysis S. Cavanagh,A. Failler,R. Hurst,2013-01-21 An interdisciplinary study of skin bridging cultural and psychoanalytic theory to consider how the body's exterior is central to human subjectivity and relations. The authors explore racialization, body modification, self-harm and comedic representations of skin drawing from the clinical domain, visual arts, popular culture and literature. **Skin in Psychoanalysis** Jorge Ulnik,2020-03-11 Skin in Psychoanalysis is an important theoretical contribution revising several authors starting with Freud in whose writing we can now discover multiple direct or indirect references to the skin. It adopts a decidedly complex point of view regarding the skin here the skin as source, the skin as object, the skin as protection and as a way of entrance as contact and as contagion, the skin for two within the relationship with the mother, the skin as envelope and as support as a shell presented as second skin as demarcation of individuality as a place of inscription of non-verbal memories, toxic envelopes and so on. Also being the result of more than fifteen years of work with dermatologists and patients with skin diseases, psoriasis in particular, the book can be seen as a serious proposal for interdisciplinary work between dermatologists and psychoanalysts. The hospital is a place where both tragedies and miracles occur where many people go to heal but many others go in search for punishment.

Under the Skin Alessandra Lemma,2010 **The Skin-Ego** DIDIER. ANZIEU, Taylor & Francis Group, 2019-07-10 **The Skin-Ego** Didier Anzieu, 2018-05-15 In this classic work the author presents and develops his theory of the importance of the Skin ego. Just as the skin is wrapped around the body so the author sees the Skin ego as a psychical wrapping containing, defining and consolidating the subject. From this perspective the structure and functions of the skin can provide psychoanalysts and general readers with a fertile and practical metaphor. The author's concept of the Skin ego is the answer to questions he regards as crucial to contemporary psychoanalysis: questions of topography which were left incomplete by Freud, the analysis of fantasies of the container as of the contained, issues of touch between mothers and babies, extending the concept of prohibitions within an Oedipal framework to those derived from a prohibition on touching and questions pertaining to the representation of the body and to
