

**Team Dynamics and Leadership
Part Three: Situational Leadership
Study Guide**

Note: To be successful you should read and study the reading materials provided in the introduction sections of each week. The reading and PPT materials will be used for examination questions even if we did not cover each idea in class time. However, these are the **KEY** items to focus on. The exam is a 50-question standardized T/F and M/C exam with no short answer requirement.

PESTLE categories (couple questions here)

The **PESTLE** categories, also known as **PEST** or **PESTEL**, refer to the external factors that can impact an organization's operations and decision-making. These categories include **political, economic, social, technological, legal, and environmental factors**. In the context of the uploaded material, the discussion revolves around the importance of considering these external forces, such as tax policies, fiscal policies, trade policies, political policies, cultural and social trends, legislation, and environmental factors, in the decision-making process and leadership strategies. The emphasis is on understanding and analyzing these external factors to make informed decisions and adapt leadership styles based on the situational context. Additionally, the material highlights the significance of understanding change leadership theories, such as Rogers' diffusion of innovation, and the different types of motivation, including intrinsic and extrinsic motivation, in driving organizational success.

1. SUI (Diagnose and then determine is key; in your study take a deeper dive here into quadrants and how to address individuals in each category)
2. Path-Goal (Suggests leaders should vary approach based on task at hand and characteristics of follower)
3. Motivation 1.0(survival), 2.0(extrinsic, carrot & stick), 3.0(autonomy, mastery, purpose), 4.0(not in the notes or book) (goal/characterization of each stage)
4. Extrinsic and intrinsic motivation definitions (when does each work best?)
 - a. Carrots and stick, reward, punishment (understand these within the extrinsic concept)
5. Type 1, Type X
6. Needs (What are those basic needs that Ryan and Deci highlight? We have needs for social relatedness)
7. Rogers-Diffusion of Innovation (relative advantage, compatibility, complexity, observability, trialability; Adoption categories)
8. Kotter's work to transform change (not just manage it)
9. Heifetz and Linsky-adaptive leadership
