Lovett,1910 The Bakhshālī Manuscript Takao Hayashi,1995-01-01 The Bakhshālī Manuscript is an old birch bark manuscript which treats mathematics in Sanskrit It was unearthed by a farmer in AD 1881 at the small village of Bakhshālī about eighty kilometers north east of Peshawar one of the important trading centers of the ancient Gandhāra district now Pakistan It was studied by eminent Indologists and historians of mathematics of the time yet a number of mathematical rules and examples in it were either left undeciphered or misunderstood due to the fragmentary nature of the manuscript the irregularities of the language and the fact that the study of the history of Indian mathematics was in an early stage The dating of the manuscript as well as of the work in it has also been long a matter of controversy The dates estimated range from the early centuries of the Christian era to the twelfth century The situation has been much improved however by quite a few studies on Indian mathematics that appeared after those pioneering works and by the publication of two Sanskrit works Bhāskara's commentary on the Aryabhaṭa and Śrīdhara's Paṭāṅjali with an old commentary

which have greatly enhanced our knowledge of Indian mathematics of the seventh and eighth centuries This book offers a fresh translation of the manuscript the first English translation of the whole text based on a systematic study of linguistic peculiarities and a mathematical commentary based on a comparative study of the Bakhsh l work and other Sanskrit mathematical texts including the two mentioned above The Introduction attempts to locate the Bakhsh l work properly within the history of Indian mathematics      **Transactions of the Pharmaceutical Meetings** ,1915      The Quarterly Journal of Economics Charles Franklin Dunbar, Frank William Taussig, Abbott Payson Usher, Alvin Harvey Hansen, William Leonard Crum, Edward Chamberlin, Arthur Eli Monroe, 1916 Issues for 1886 1908 include the section Recent publications upon economics      **Department of Homeland Security Bioterrorism Risk Assessment** National Research Council, Division on Earth and Life Studies, Board on Life Sciences, Division on Engineering and Physical Sciences, Board on Mathematical Sciences and Their Applications, Committee on Methodological Improvements to the Department of Homeland Security's Biological Agent Risk Analysis, 2009-01-03 The mission of Department of Homeland Security Bioterrorism Risk Assessment A Call for Change the book published in December 2008 is to independently and scientifically review the methodology that led to the 2006 Department of Homeland Security report Bioterrorism Risk Assessment BTRA and provide a foundation for future updates This book identifies a number of fundamental concerns with the BTRA of 2006 ranging from mathematical and statistical mistakes that have corrupted results to unnecessarily complicated probability models and models with fidelity far exceeding existing data to more basic questions about how terrorist behavior should be modeled Rather than merely criticizing what was done in the BTRA of 2006 this new NRC book consults outside experts and collects a number of proposed alternatives that could improve DHS s ability to assess potential terrorist behavior as a key element of risk informed decision making and it explains these alternatives in the specific context of the BTRA and the bioterrorism threat
