Collectively they show how critiquing conditions rather than the teachers themselves provide a means for problematising the teacher while also advocating the well being of teachers as humans Contributions offer compelling examples of how critical scholars can emphasise teaching as a political and value laden exercise and therefore treat the teacher subject as also being constituted through political and value laden discourses Critical Perspectives on Teachers and Teaching offers a provocation to inspire new questions moving forward That is critical researchers have an obligation to challenge taken for granted assumptions not only by looking outwards at the policymakers edu businesses and intergovernmental agencies e g OECD but also by looking inwards and challenging their assumptions about power discourse and subjectivity This book was originally published as a special issue of Critical Studies in Education
