Product management starts here. Before building and managing products in mid to large organisations, product people need to understand the organisation's aims, strategies and culture and what they mean for them. *Product Management: Understanding Business Context and Focus* explores how business context and focus relate to and impact product management from the organisation's vision statement to objectives, strategy, values and culture. Looking specifically at what each encompasses, the book examines the different approaches taken by organisations and how this flows down to and can be navigated by product people. *Product Management: Understanding Business Context and Focus* is the second of a four book series. *The Gentle Art of Leadership* Brian Donovan, Dean Phelan, 2024-11-12

What makes leaders great? The writing is on the wall. Quantitative and qualitative research indicate they consistently practise a Gentle Art of Leadership. Firsthand analyses of more than six thousand 360° feedback reports. Over 50 one on one interviews with Leaders. Reflections on hundreds of Executive Coaching sessions. Review of over 160 books and articles on leadership. Our own experiences as CEOs. A compelling guide and handbook for anyone in a leadership role. This Gentle Art of Leadership cuts against the grain of the often held view that great leaders, CEOs and team coaches are charismatic, extroverted, forceful characters with powerful egos and that we need such big personalities to transform our companies, organisations, sporting teams and nations. Sometimes this view proves to be true and we remember such characters. But more often the greatest leaders who leave the greatest legacies have a powerful mixture of personal humility, integrity and indomitable will for forwarding the health, success and long term prosperity of their organisation and people. They seem to get the best out of others by genuinely treating them with dignity and respect whilst focused on strategic outcomes.
