*China's Logistics* Paul Clifford,Christopher Logan,2024-12-13 Exploring an underreported subject with global ramifications this book sheds much needed light on the rapid development of China's logistics industry over the past several decades and puts it into historical context Though still lagging behind global logistics leaders overall China has invested heavily in logistics infrastructure and technology to become a vital link in global supply chains and is forging ahead in e-commerce logistics This timely book analyzes the key policies infrastructure projects technologies and companies that have transformed China's domestic logistics capabilities and enabled it to become deeply intertwined with the worldwide supply chain As the world enters a new era of geopolitics and confronts the possibility of US-China decoupling it is more critical than ever to understand China's logistics system to navigate uncertain times and with their decades of experience these authors are the very best guides Business leaders policy makers and logistics and supply chain professionals will benefit from this comprehensive and readable book's insights into how and why China's logistics system developed as it has what that means for businesses and nations connected to China and where we go from here

### Technology and Public Management

Alan R. Shark,2022-12-30 Students of public administration public policy and nonprofit management require a strong foundation in how government and NGOs are connected with information technology Whether simplifying internal operations delivering public facing services governing public utilities or conducting elections public administrators must understand these technological tools and systems to ensure they remain effective efficient and equitable This innovative textbook is designed for students of public affairs at every level who need to know and understand how technology can be applied in today's public management workplace The book explores the latest trends in technology providing real life examples about the need for policies and procedures to safeguard technology infrastructure while providing greater openness participation and transparency In *Technology and Public Management* Second Edition author Alan Shark informs, engages and directs students to consider best practices with new material on emerging technology data management and analytics artificial intelligence and cybersecurity This thoroughly updated second edition explores A broad range of technologies on which government nonprofit partners and citizens depend upon to deliver important infrastructure including security education public health and personal healthcare transit and transportation culture and commerce Growing mistrust in government and

the role technology can play in ameliorating it Emerging and adapted technologies to help government achieve ambitious goals including drawing carbon out of the atmosphere empowering students everywhere to learn effectively at home or at school improving healthcare providing affordable housing enabling agriculture to keep pace with population growth and improving scores of other public services The critical insights and management skills needed to argue for investments in information technology as necessary priorities for our public organizations to improve public services and resources This reader friendly and jargon free textbook is required for students enrolled in public administration and nonprofit management programs as well as for practicing public administrators looking for a better understanding of how technology may be successfully and responsibly used in public organizations It is equally valuable as a text for MBA studies social work education public health and other degree programs that produce graduates who will work with and within those organizations that deliver public services

*The Fusion of Artificial Intelligence and Soft Computing Techniques for Cybersecurity* M. A. Jabbar, Sanju Tiwari, Subhendu Kumar Pani, Stephen Huang, 2024-06-28 With the ever increasing threat of cyber attacks especially as the COVID 19 pandemic helped to ramp up the use of digital communications technology there is a continued need to find new ways to maintain and improve cybersecurity This new volume investigates the advances in artificial intelligence and soft computing techniques in cybersecurity It specifically looks at cybersecurity during the COVID 19 pandemic the use of cybersecurity for cloud intelligent systems applications of cybersecurity techniques for web applications and cybersecurity for cyber physical systems A diverse array of technologies and techniques are explored for cybersecurity applications such as the Internet of Things edge computing cloud computing artificial intelligence soft computing machine learning cross site scripting in web based services neural gas GNG clustering technique and more

The Secret to Cybersecurity Scott Augenbaum, 2019-01-29 Cybercrimes are a threat and as dangerous as an armed intruder yet millions of Americans are complacent or simply uninformed of how to protect themselves The Secret to Cybersecurity closes that knowledge gap by using real life examples to educate readers It's 2 a.m. do you know who your child is online with According to author Scott Augenbaum between 80 to 90 percent of students say they do whatever they want on their smartphones and their parents don't have a clue Is that you What about your online banking passwords are they safe Has your email account or bank debit card ever been compromised In 2018 there were data breaches at several major companies If those companies have your credit or debit information that affects you There are bad people in the world and they are on the internet They want to hurt you They are based all over the world so they're hard at work when even you're sleeping They use automated programs to probe for weaknesses in your internet security programs And they never stop Cybercrime is on the increase internationally and it's up to you to protect yourself But how The Secret to Cybersecurity is the simple and straightforward plan to keep you your family and your business safe Written by Scott Augenbaum a 29 year veteran of the FBI who specialized in cybercrimes it uses real life examples to educate and inform readers explaining who
