## Facebook Today Returns:

The Return of Yahoo Can Akdeniz, The history of business is littered with forgotten companies who sparked burned brightly and eventually disappeared Rarely does a company come back from the brink of disaster let alone turn around dramatically enough to challenge the top tier corporations who once edged it out of the industry However exceptions exist for every rule and Yahoo under the visionary guidance of CEO Marissa Mayer has managed to do just that This short book highlights the ambitious strategies and innovative techniques that Yahoo used to climb back into one of the most competitive industries in the world **Advanced Brand Management** Paul Temporal, 2011-09-15 Advanced Brand Management Managing Brands in a Changing World Second Edition is a complete guide to managing the most valuable assets in the business world brands In this exciting second edition Paul Temporal a world renowned brand expert explains how to develop and manage sophisticated strategies that will ensure sustainable brand value Dr Temporal addresses issues such as How to gain and use valuable consumer insights How to use emotion to secure brand success How to create a brand vision How to create a power brand strategy How to develop positioning strategies that bring outstanding results How to respond to brand architecture challenges What to consider in extending revitalizing repositioning and deleting brands How to build a brand culture engage employees and carry out internal branding How to create a total communications strategy How to address critical issues in brand management and the role of speed agility and innovation How to structure brand guardianship and management How to track brand success More than 40 case studies including both successful and unsuccessful international brand management initiatives illustrate practical applications of the topics covered New cases include Google Twitter MySpace Facebook Zara Opus Chivas Regal MTV P Coca Cola Absolut Nike LG Apple The Obama presidential campaign Plus more This stimulating book also features a brand management toolkit an invaluable collection of questions exercises and notes culled from Dr Temporal s wealth of experience The toolkit will provide you with your own personal consultancy checklists and support helping to improve and secure your brand equity Whether you are in control of an established company starting up a new one or have responsibility for a brand in a particular industry or sector Advanced Brand Management is an indispensable resource *Fair Shot* Chris Hughes, 2018-02-20 deeply felt and cogently argued Hughes makes a powerful case that deserves a respectful hearing The Financial Times Facebook co founder Chris Hughes argues that the best way to fight income inequality is with a radically simple idea a guaranteed income for working people paid for by the one percent The first half of Chris Hughes s life played like a movie reel right out of the American Dream He grew up in a small town in North Carolina His parents were people of modest means but he was accepted into an elite boarding school and then Harvard both on scholarship There he met Mark Zuckerberg and Dustin Moskovitz and became one of the co founders of Facebook In telling his story Hughes demonstrates the powerful role fortune and luck play in today s economy Through the rocket ship rise of Facebook Hughes came to understand how a select few can become ultra wealthy nearly

overnight He believes the same forces that made Facebook possible have made it harder for everyone else in America to make ends meet To help people who are struggling Hughes proposes a simple bold solution a guaranteed income for working people including unpaid caregivers and students paid for by the one percent The way Hughes sees it a guaranteed income is the most powerful tool we have to combat poverty and stabilize America s middle class Money cold hard cash with no strings attached gives people freedom dignity and the ability to climb the economic ladder A guaranteed income for working people is the big idea that s missing in the national conversation This book grounded in Hughes s personal experience will start a frank conversation about how we earn in modern America how we can combat income inequality and ultimately how we can give everyone a fair shot

VC Index Performance. Performance of Publicly Traded Venture Capital Indices Noah Paul,2023-10-17 Master s Thesis from the year 2021 in the subject Business economics Investment and Finance grade 8 1 10 TiasNimbas Business School course Investment Management language English abstract The purpose of this study is to examine the performance of publicly traded Venture capital indices As these indices have become available to the public in 2012 allowing investors globally to gain exposure to the Venture Capital asset class It is of note that the indices were conceived in 1996 but only became available to the public in 2012 This raises the question if these Index funds are able to provide attractive returns or even beat the market In order to answer this question archival price datasets have been extracted for VC indices various benchmark indices and analyzed using the Sharpe ratio and Jensen s alpha The data extracted covers a 25 year time frame from 1995 2021 and is extracted in both monthly and annual time intervals Using this approach the research finds that one of the VC indices exceeds market risk adjusted returns in terms of the Sharpe ratio and Jensen s alpha in net and gross returns This finding contradicts the academic theory and should not be possible The other VC index show significant underperformance using both measures To conclude it is not possible to make any general statements using the present sample In regard to VC index performance Therefore it is suggested that further empirical research is conducted using a larger sample of VC indices while the outperformance of the TRVCINX is also investigated as it stands in contrast to the academic literature
