The Ridiculously Simple Guide to Apple Watch Series 5 Scott La Counte, 2019-09-03

Unlock the power of Apple Watch. The Apple Watch has of course been around for years and seen several updates. It's the latest updates however that have truly made the newest watches standout. From always on displays to GPS navigation, Apple Watch has become more than a companion gadget to the iPhone; it's become a stand alone device that is hard to live without. In addition to all the great features, Apple Watch has always had. Series 4 introduced a slimmer body yet with a screen that is somehow bigger, has optional cellular for making phone calls and streaming music without your phone and drop detection so if you fall and can't get up, the fire department is dispatched to your location. Everything about it was designed to motivate you to be more active. Series 5 has taken it a step further by adding one of the most asked for features: an always on display. Something it should be noted: it does without sacrificing battery. As amazing as all the new features are, it's not quite as easy to use as an iPhone: the lack of buttons, the smaller screen and general UI can make a frustrating initial experience. The point of this book is to help new Apple Watch users and users updating to WatchOS 6 from an older device get the most out of their investment. This book covers the following topics: What's new in WatchOS 6, What's the difference between all of the different watches, What the Apple Watch Series 5 can and can't do, WatchOS gestures, Using Apple Pay from your Apple Watch, Finding, installing, updating and removing apps from your Apple Watch, Using different Apple Watch features such as SOS, Breathe, compass, Using different Apple Watch apps such as Calendar, Reminders, Music, Getting driving directions with the Apple Watch, Using Siri on the Apple Watch, Changing watch faces, Sending/receiving messages, emails and phone calls from your Apple Watch, Doing a workout with the Apple Watch, Series 5 Watch accessories. And much more. Are you ready to start enjoying your new Apple Watch? Then let's get started.
