**TV Guide** ,2007 **Books Out-of-print** ,1986 **Dreams of the Overworked** Christine M. Beckman,Melissa Mazmanian,2020-06-09 A riveting look at the real reasons Americans feel inadequate in the face of their dreams and a call to celebrate how we support one another in the service of family and work

in our daily life Jay s days are filled with back to back meetings but he always leaves work in time to pick his daughter up from swimming at 7pm knowing he ll be back on his laptop later that night Linda thinks wistfully of the treadmill in her garage as she finishes folding the laundry that s been in the dryer for the last week Rebecca sits with one child in front of a packet of math homework while three others clamor for her attention In *Dreams of the Overworked* Christine M Beckman and Melissa Mazmanian offer vivid sketches of daily life for nine families capturing what it means to live work and parent in a world of impossible expectations now amplified unlike ever before by smart devices We are invited into homes and offices where we recognize the crushing pressure of unraveling plans and the healing warmth of being together Moreover we witness the constant planning that goes into a good day often with the aid of phones and apps Yet as technologies empower us to do more they also promise limitless availability and connection Checking email on the weekend monitoring screen time and counting steps are all part of the daily routine The stories in this book challenge the seductive myth of the phone clad individual by showing that beneath the plastic veneer of technology is a complex hidden system of support our dreams being scaffolded by retired in laws friendly neighbors spouses and paid help This book makes a compelling case for celebrating the structures that allow us to strive for our dreams by supporting public policies and community organizations challenging

workplace norms reimagining family and valuing the joy of human connection      **Forthcoming Books** Rose Arny,2003

**Literacy in Action** Renee Hobbs, 2024-10-14 There has never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life, work, and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools. Key features of the second edition: Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance, and the increased global regulation of digital platforms. Attention to media literacy for empowerment and protection. Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression. Full color presentation with figures and photos to increase student engagement. Each chapter includes Media Literacy Trailblazers Profiles of key thinkers and their theories, connect students with the discipline of media literacy. *Media Literacy DISCourse* NEW Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples. *Learning in Action* NEW Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter. Supplemental Materials available at [www.mlaction.com](http://www.mlaction.com). Students can review key ideas, learn about more Media Literacy Trailblazers, and watch videos aligned with each chapter. Instructors can access a Teacher's Guide of best practices, in-class activities, homework, and projects. Also available are chapter summaries, lecture slides, YouTube playlists, and test materials.
