## Snowflake Recipes:

**Snowflake Recipes** Dillon Dayton, John Eipe, 2024-12-19 Explore Snowflake's core concepts and unique features that differentiates it from industry competitors such as Azure Synapse and Google BigQuery. This book provides recipes for architecting and developing modern data pipelines on the Snowflake data platform by employing progressive techniques, agile practices and repeatable strategies. You'll walk through step by step instructions on ready to use recipes covering a wide range of the latest development topics. Then build scalable development pipelines and solve specific scenarios common to all modern data platforms such as data masking, object tagging, data monetization and security best practices. Throughout the book you'll work with code samples for Amazon Web Services, Microsoft Azure and Google Cloud Platform. There's also a chapter devoted to solving machine learning problems with Snowflake. Authors Dillon Dayton and John Eipe are both Snowflake SnowPro Core certified, specializing in data and digital services and understand the challenges of finding the right solution to complex problems. The recipes in this book are based on real world use cases and examples designed to help you provide quality, performant and secured data to solve business initiatives.

**Time Series Analysis with Python Cookbook** Tarek A. Atwan, 2022-06-30 Perform time series analysis and forecasting confidently with this Python code bank and reference manual. Key Features: Explore forecasting and anomaly detection techniques using statistical machine learning and deep learning algorithms. Learn different techniques for evaluating, diagnosing and optimizing your models. Work with a variety of complex data with trends, multiple seasonal patterns and irregularities. Book Description: Time series data is everywhere, available at a high frequency and volume. It is complex and can contain noise, irregularities and multiple patterns, making it crucial to be well versed with the techniques covered in this book for data preparation, analysis and forecasting. This book covers practical techniques for working with time series data, starting with ingesting time series data from various sources and formats, whether in private cloud storage, relational databases, non-relational databases or specialized time series databases such as InfluxDB. Next, you'll learn strategies for handling missing data, dealing with time zones and custom business days, and detecting anomalies using intuitive statistical methods followed by more advanced unsupervised ML models. The book will also explore forecasting using classical statistical models such as Holt Winters, SARIMA and VAR. The recipes will present practical techniques for handling non-stationary data using power transforms, ACF and PACF plots, and decomposing time series data with multiple seasonal patterns. Later, you'll work with ML and DL models using TensorFlow and PyTorch. Finally, you'll learn how to evaluate, compare, optimize models and more using the recipes covered in the book. What you will learn: Understand what makes time

series data different from other data Apply various imputation and interpolation strategies for missing data Implement different models for univariate and multivariate time series Use different deep learning libraries such as TensorFlow Keras and PyTorch Plot interactive time series visualizations using hvPlot Explore state space models and the unobserved components model UCM Detect anomalies using statistical and machine learning methods Forecast complex time series with multiple seasonal patterns Who this book is for This book is for data analysts business analysts data scientists data engineers or Python developers who want practical Python recipes for time series analysis and forecasting techniques Fundamental knowledge of Python programming is required Although having a basic math and statistics background will be beneficial it is not necessary Prior experience working with time series data to solve business problems will also help you to better utilize and apply the different recipes in this book
