**Teaching Activities for Social Work** Jill M. Chonody, 2025-11-08 This textbook is a teaching and learning guide for social work education. Increasingly, instructors want to implement active learning strategies. With changes in our students from the wired Gen Z to nontraditional students, instructors are hungry for ways to engage students in the content and the classroom. Furthermore, as new educational standards from our discipline's governing body are being implemented across social work programs, faculty may be seeking additional content or be looking to make changes to how they teach their courses. This textbook addresses this need. Many PhD programs in social work do not include specific methods in their coursework; however, most graduates will go on to teach throughout their careers. New instructors as well as those who have been teaching for a while can use this book to help implement new activities and approaches that make learning fun and engaging. The contents of this text comprise detailed descriptions of different creative teaching and learning activities. Both in-class activities and assignments are provided. The book's 100 chapters are organized under 20 themed sections: I Photography, II Art and Music, III Mindfulness and Self Care, IV Reflective Reading and Writing, V Podcasts, VI Artificial Intelligence, VII Fun and Games, VIII Professional Development, IX Anti-Racist Teaching and Design Justice, X Addressing Stereotyping and Bias, XI Human Behavior and the Social Environment, XII Theory, XIII Engagement Assessment and Clinical Practice, XIV Mezzo and Macro Practice, XV Research Methods, XVI LGBTQ Affirmative Practice, XVII Reproductive Justice and Sexual Health, XVIII Environmental Justice, XIX International Connections and Cultural Awareness, and XX Evaluating Teaching and Learning.
