## **Soccer Defender Guide:**

Soccer Defending Dylan Joseph, 2019-04-08 A player who could hardly defend A bleak soccer future as a bench warmer An athlete who lacked confidence in their game Are you or a loved one enjoying soccer but can't stand not being confident on how to defend Do you or a child have a problem stopping the team from shooting Are you a parent or player that would love to stop the dribble of each opponent but struggle even stopping the foot skills of one player If any of these situations describe you you are not alone Coaches of soccer are good at having the team work together Sadly your abilities as an individual are often lost in the team's tactics unless you are the star player on the team The coach lets the best player do as they please but every other player must do their job even though the coach may not always teach exactly how to do that job This is great when you are the favorite player but more often than not you are just existing on the field and not really contributing to your team in the way you want to Outcomes of applying the facts in this book Understand how to stop an attacker every time plus a few mindsets to avoid Learn the proper body positioning and placement in relation to the defender Remove the toxic habits you need to break Why does learning these things matter Well building your knowledge grows your confidence Self esteem is key for any soccer player and building the belief in yourself and your child will allow them to play to the level you know they can play You may think those are all well and great but how can a book really deliver on increasing the abilities of yourself son daughter or team Why not just watch a YouTube video to see it too Excitingly this book lays out step by step what you should work on and the most important keys to being able to perform on the field Yes other authors will fill up their pages with tips for various situations but never really say which things to know are the most important and will make the biggest difference in your game This book does exactly that Also though YouTube can be used to compliment a book because videos show visual representations of the skills covered each video is often unorganized and the order in which you watch the videos is NOT structured at all This book provides that structure to ensure that you are not just getting a little information in one spot and some knowledge in another without being able to understand the entire picture of how it all works together It is time for hours of Soccer Defending to finally pay off Become the player coach or parent that changes every game from here on out Pick up your copy today by clicking **BUY NOW**      **The Complete Guide to Soccer Fitness and Injury Prevention**
