## **Streaming Top Shows Openai This Month:**

**Engaging the Gadfly** Casey T. Sigmon, 2025-06-09 In 2020 most preachers and congregations were forced into online and hybrid preaching. We had to react quickly. For some this adventure opened creative forms of preaching: stiches, duets, reels, and VR. For others, it was a season of just getting by: cell phones propped up on books, laptops on dining room tables. We did what we could to proclaim the good news in turbulent times. Five years later, Sigmon invites preachers and congregations to reflect on those experiences as they consider the future of preaching. She helps the reader engage the Gadfly whose buzzing signals a shift in how we understand relationships, truth, presence, and place in this digital age. Sociologists and historians argue that we are now on the brink of a shift in communication as transformative as the invention of the printing press. No wonder ministry is so challenging right now. Ultimately, this digital age, like previous ages of technological change, presents problems and possibilities to the practice of preaching and so ecclesiologically, the shape of the church. What shapes will emerge? Sigmon will empower preachers and congregations to answer that question for themselves through a new media homilecclsiology.

**Entrepreneurship in Media and Entertainment** Alex Connock, 2025-10-28 Where do ideas like Pokemon or Harry Potter come from? How do hit artists like Charlie XCX happen? How are stars like MrBeast created? How are high-value entrepreneurial exits created? **Entrepreneurship in Media and Entertainment: Hits and Value Creation** is the detailed global go-to guide to the journey of a startup in the fast-evolving global creative industries. Written by Oxford academic and media entrepreneur Alex Connock, the book spans the lifetime of an entrepreneurial venture through seven key stages and value drivers: startup, ideas, talent, technology, engagement, scaleup, and exit. Covering entertainment in video games, TV, film, streaming, the creator economy, music, publishing, advertising, live entertainment, theatre, and VR/AR, this book has a truly global reach, with cases from Nigeria to Ghana, South Africa, Saudi Arabia, India, China, Japan, Indonesia, Malaysia, South Korea, Australia, Vietnam, Brazil, and Mexico, as well as Europe, the UK, and US. The impact of artificial intelligence is embedded throughout, from Generative AI and copyright to content and collaborative filtering in AI-powered streaming. Filled with examples, the book dives deep into the careers of stars, the genesis of hits, the power of creators, and the best thinking on ideas generation. Theoretical concepts are leveraged to analyze startup creation and engagement, along with practical valuation techniques throughout the entrepreneurial journey. An up-to-date, academically informed global guide, this book is part of a trilogy that represents essential reading for students, scholars, and reflective practitioners of media management, building on earlier titles on AI and live experience.
