## **Tiktok In The Us Sign In:**

*Media Literacy in Action* Renee Hobbs, 2024-10-14 There's never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life work and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools. Key features of the second edition: Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance; and the increased global regulation of digital platforms. Attention to media literacy for empowerment and protection. Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression. Full-color presentation with figures and photos to increase student engagement. Each chapter includes Media Literacy Trailblazers: Profiles of key thinkers and their theories connect students with the discipline of media literacy. Media Literacy DISCourse NEW: Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples. Learning in Action NEW: Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter. Supplemental Materials available at [www.mlaction.com](http://www.mlaction.com). Students can review key ideas, learn about more Media Literacy Trailblazers, and watch videos aligned with each chapter. Instructors can access a Teacher's Guide of best practices in class activities, homework, and projects. Also available are chapter summaries, lecture slides, YouTube playlists, and test materials. **"I Have Nothing to Hide"** Heidi

Boghosian, 2021-07-13 An accessible guide that breaks down the complex issues around mass surveillance and data privacy and explores the negative consequences it can have on individual citizens and their communities. No one is exempt from data mining: by owning a smartphone or using social media or a credit card, we hand over private data to corporations and the government. We need to understand how surveillance and data collection operates in order to regain control over our digital freedoms and our lives. Attorney and data privacy expert Heidi Boghosian unpacks widespread myths around the seemingly innocuous nature of surveillance, sets the record straight about what government agencies and corporations do with our personal data, and offers solutions to take back our information. *I Have Nothing to Hide* is both a necessary mass surveillance overview and a reference book. It addresses the misconceptions around tradeoffs between privacy and security, citizen spying, and the ability to design products with privacy protections. Boghosian breaks down misinformation surrounding 21 core myths about data privacy, including: Surveillance makes the nation safer. No one wants to spy on kids. Police don't monitor social media. Metadata doesn't reveal much about me. Congress and the courts protect us from surveillance. There's nothing I

can do to stop surveillance By dispelling myths related to surveillance this book helps readers better understand what data is being collected who is gathering it how they're doing it and why it matters

*The Fight for TikTok* Tracie T. Franks, 2023-03-29 The popular video sharing app TikTok came under fire from the US government in 2020 owing to concerns about its Chinese ownership and the potential threat it posed to national security As a result the Trump administration issued an executive order effectively banning TikTok in the US unless it was sold to a US based company ByteDance TikTok's parent company initially challenged the ban in court claiming that it was not based on credible evidence and would violate the company's right to due process However a federal judge granted an injunction against the ban in September 2020 citing concerns about the government's authority to prohibit internet activity A higher court later overturned the injunction in December 2020 but the ban was never fully implemented due to ongoing legal challenges and negotiations Meanwhile TikTok continued to operate in the United States albeit with some restrictions and increased government scrutiny TikTok tentatively agreed to sell its US operations to Oracle and Walmart in November 2020 which was seen as a potential solution to the ban However when the Biden administration took office in January 2021 this agreement was put on hold and the future of TikTok in the United States remains uncertain TikTok is still available in the United States as of early 2023 and is one of the most popular social media platforms in the country However the battle over its ownership and potential national security risks remains a contentious and divisive issue **BANNED OR SAVED?**
