Electronic Commerce 2018 Efraim Turban,Jon Outland,David King,Jae Kyu Lee,Ting-Peng Liang,Deborrah C. Turban,2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level advanced undergraduate level textbook on the subject Electronic commerce EC describes the manner in which transactions take place over electronic networks mostly the Internet It is the process of electronically buying and selling goods services and information Certain EC applications such as buying and selling stocks and airline tickets online are reaching maturity some even exceeding non Internet trades However EC is not just about buying and selling it also is about electronically communicating collaborating and discovering information It is about e learning e government social networks and much more EC is having an impact on a significant portion of the world affecting businesses professions trade and of course people The most important developments in EC since 2014 are the continuous phenomenal growth of social networks especially Facebook LinkedIn and Instagram and the trend toward conducting EC with mobile devices Other major developments are the expansion of EC globally especially in China where you can find the world s largest EC company Much attention is lately being given to smart commerce and the use of AI based analytics and big data to enhance the field Finally some emerging EC business models are changing industries e g the shared economy models of Uber and Airbnb The 2018 9th edition brings forth the latest trends in e commerce including smart commerce social commerce social collaboration shared economy innovations and mobility *Social Engineering* Robert W. Gehl,Sean T. Lawson,2022-03-08 Manipulative communication from early twentieth century propaganda to today s online con artistry examined through the lens of social engineering The United States is awash in manipulated information about everything from election results to the effectiveness of medical treatments Corporate social media is an especially good channel for manipulative communication with Facebook a particularly willing vehicle for it In Social Engineering Robert Gehl and Sean Lawson show that online misinformation has its roots in earlier techniques mass social engineering of the early twentieth century and interpersonal hacker social engineering of the 1970s converging today into what they call masspersonal social engineering As Gehl and Lawson trace contemporary manipulative communication back to earlier forms of social engineering possibilities for amelioration become clearer The authors show how specific manipulative communication practices are a mixture of information gathering deception and truth indifferent statements all with the instrumental goal of getting people to take actions the social engineer wants them to Yet the term fake news they claim reduces everything to a true false binary that fails to encompass the complexity of manipulative communication or to map onto many of its practices They pay special attention to concepts and terms used by hacker social engineers including the hacker concept of bullshitting which the authors describe as a truth indifferent mix of deception accuracy and sociability They conclude with recommendations for how society can undermine masspersonal social engineering and move toward healthier democratic deliberation *INFORMS Conference Program*

Automated Secure Computing for Next-Generation Systems Amit Kumar Tyagi, 2023-12-19

AUTOMATED SECURE COMPUTING FOR NEXT GENERATION SYSTEMS This book provides cutting edge chapters on machine empowered solutions for next generation systems for today's society. Security is always a primary concern for each application and sector. In the last decade many techniques and frameworks have been suggested to improve security data information and network. Due to rapid improvements in industry automation however systems need to be secured more quickly and efficiently. It is important to explore the best ways to incorporate the suggested solutions to improve their accuracy while reducing their learning cost. During implementation the most difficult challenge is determining how to exploit AI and ML algorithms for improved safe service computation while maintaining the user's privacy. The robustness of AI and deep learning as well as the reliability and privacy of data is an important part of modern computing. It is essential to determine the security issues of using AI to protect systems or ML based automated intelligent systems. To enforce them in reality privacy would have to be maintained throughout the implementation process. This book presents groundbreaking applications related to artificial intelligence and machine learning for more stable and privacy focused computing. By reflecting on the role of machine learning in information cyber and data security **Automated Secure Computing for Next Generation Systems** outlines recent developments in the security domain with artificial intelligence machine learning and privacy preserving methods and strategies. To make computation more secure and confidential the book provides ways to experiment conceptualize and theorize about issues that include AI and machine learning for improved security and preserve privacy in next generation based automated and intelligent systems.
