Top managers in diverse organizations have an understanding and appreciation by the staff community. Instead of trying to control events, they are focused on people, their experiences, and their interests in doing better. Top managers are not judged merely by results but by the manner in which they achieve it, creating an environment

The intensity of the language about the community, though, that was often racist and unbecomingly negative, was a stark contrast to the thoughtful and caring tone of the writing. Another reviewer suggests that the book made the connection through generally negative comments on Blacks in these studies (pages 104 and 116). Another reviewer indicated that their group was so hostile to Blacks as to feel that the authors must have done the same thing themselves for the research.

Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1. John D.

Bonvillian, Nicole Kissane Lee, Tracy T. Dooley, Filip T. Loncke, 2020-07-30 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project and places the Simplified Sign System in a wider context of sign usage historically and by different populations. Volume 2 presents the lexicon of signs totalling approximately 1000 signs each with a clear illustration and a written description of how the sign is formed as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience such as healthcare professionals, aid workers, military personnel, travellers, or parents and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people and will be of great interest to researchers and educators alike. Coelho, 1998-01-01 This text outlines relevant theoretical background and provides detailed practical advice and suggestions for educators in schools serving culturally and linguistically diverse communities. Some chapters focus on the needs of students from immigrant communities, especially those who are learning the language of instruction, while others include historical minority groups as well. *Deaf People and Society* Irene W. Leigh, Jean F. Andrews, 2016-08-19 *Deaf People and Society* incorporates multiple perspectives related to the topics of psychology, education, and sociology, including the viewpoints of deaf adults themselves. In doing so, it considers the implications of what it means to be deaf or hard of hearing and how deaf adults' lives are impacted by decisions that professionals make, whether in the clinic, the school, or when working with family.

This second edition has been thoroughly revised and offers current perspectives on the following topics Etiologies of deafness and the identification process The role of auditory access Cognition language communication and literacy Bilingual bimodal and monolingual approaches to language learning Educational legal and placement aspects Childhood psychological issues Psychological and sociological viewpoints of deaf adults The criminal justice system and deaf people Psychodynamics of interaction between deaf and hearing people Each chapter begins with a set of objectives and concludes with suggested readings for further research This edition contains 10 new and original case studies including ones on hearing children of deaf adults sudden hearing loss a young deaf adult with mental illness and more Written by a seasoned deaf hearing bilingual team this unique text continues to be the go to resource for students and future professionals interested in working with deaf and hard of hearing persons *The Oxford Handbook of Deaf Studies in Literacy* Susan R. Easterbrooks, Hannah M.

Dostal, 2021 The Oxford Handbook of Deaf Studies in Literacy brings together state of the art research on literacy learning among deaf and hard of hearing learners DHH With contributions from experts in the field this volume covers topics such as the importance of language and cognition phonological or orthographic awareness morphosyntactic and vocabulary understanding reading comprehension and classroom engagement written language and learning among challenged populations Avoiding sweeping generalizations about DHH readers that overlook varied experiences this volume takes a nuanced approach providing readers with the research to help DHH students gain competence in reading comprehension
