Please be surprised that you will be much better than your peers after using the technique. There are two main advantages of the memory technique: 1 To help you to memorize the meaning of a word. For example, ego oneself. The first letter of the linked word oneself is o, which is the same as the last letter of ego. The connection should tell you the meaning of ego. See more examples as below: imp infant, check the link between the letters i, notion idea, check the link between the letters i, cerebral brain, check the link between the letters b. 2 To help you to distinguish easily confused words: migrate move, check the link between the letters m, immigrate in, check the link between the letters i, emigrate exit, check the link between the letters e, stationary abiding, check the link between the letters a, stationery envelope, check the link between the letters e.
