## **Subverting Global Myths Theology And The Public Issues Shaping Our World:**

**Subverting Global Myths** Vinoth Ramachandra, 2008-07-02 It is a myth that only the uninformed masses believe in myths and that power brokers media moguls leading scientists financial tycoons political luminaries and intellectual elites don't. The myths that the ruling classes believe may be more sophisticated but they are myths nonetheless. These public large scale narratives engage our imaginations and shape the way we experience the world. They are the stories that tell us what is important to know and how to live. *Subverting Global Myths* takes up six areas of contemporary global discourse: terrorism, religious violence, human rights, multiculturalism, science and postcolonialism. Here powerful myths energize and mobilize considerable public funding as well as academic production. This book is not addressed primarily to theological specialists but to all thoughtful readers who are concerned about the public issues that shape our increasingly interconnected and interdependent world. Vinoth Ramachandra draws at length on his own experience working among university students and professors against a backdrop of militant religious and secular ideologies in Sri Lanka, a country that has suffered from terrorism and a war on terror that has claimed over sixty thousand lives since the late 1970s and shows no signs of abating. Reflected as well is his experience of living and traveling extensively not only in the West but in several of the trouble spots of Asia today. Thoughtful critical readers who care to explore reality rather than flip from one reality show to another will appreciate this invitation to subvert present reality in order to make way for another. Price, Hank Voss, 2021-04-08 This book provides a lively introduction to the exciting discipline of evangelical theology. Aligning with the global Lausanne Movement, the authors identify Scripture and mission as methodological centres of evangelical theology. *Evangelical Theology* highlights the key

evangelical themes of atonement conversion justification and sanctification as well as recent developments around trinitarian theology and pneumatology      **ThirdWay** ,2008-12 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture      **Doing Integrative Theology** Myk Habets,Phil Halstead,2016-02-09 The doing of theology comes in many different guises and styles This volume is concerned with Integrative Theology a discipline which serves participation in the mission of God It is a practice of discernment by which we aim to be attentive to God in God s world God s word and God s work so as to grow in our understanding of what God wants for and is doing in the world We seek this knowledge so that we may align ourselves with God s desire in relation to specific realities and issues and serve what we discern to be God s purpose with wisdom and courage When we do that we are participating in the mission of God By means of an explanation of Integrative Theology its aims goals and methods and then through a series of essays illustrating the results of such a theology this volume serves as a textbook for doing Integrative Theology Students and faculty alike will find in this volume a valuable resource for doing theology in the early twenty first century      **World Christianity** Graham Joseph Hill,2024-10-08 World Christianity An Introduction provides an accessible introduction to the discipline methodology and field of world Christianity In this book Graham Joseph Hill engages with more than one hundred high profile Majority World and First Nations Christian leaders to learn what they can teach the West about mission leadership hospitality creation care education worship and more Hill challenges the Western church to move away from a Eurocentric and Americentric view of church and mission and he calls for the church to engage with crucial paradigm shifts in world Christianity The future of the global church including the churches in the West exists in these global exchanges World Christianity is an indispensable guide for the church as it navigates the unique global experiences of the twenty first century      **Book Review Index - 2009 Cumulation** Dana Ferguson,2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year      **Myths of the Tribe** David Rich,2021-12-26 Myths of the Tribe illustrates the negative historical impact of our major religions which have created unending conflicts that obscure clear thinking and continue hazardous to our health today More than two centuries after the Age of Reason culminated in the French Revolution modern society still operates on the basis of assumptions and attitudes that originated in the ancient myths propagated by organized religion These myths hamper efforts to apply reason to our problems and foster violent conflicts that threaten global security Myths of the Tribe illustrates how the belief systems of all major religions have become a detriment to clear thinking rational conduct and wise public policy suggesting we substitute a

rational analysis of all problems in the light of objective scientific evidence a system of ethics that allows complete individual liberty constrained only by the principle of harming no one else taking personal responsibility for one's own welfare and actions and the absence of government control over the pursuit of happiness As relevant today as it was when first published by Prometheus Books in 1993 *Myths of the Tribe* has been updated in its second edition with new data reflecting our views on religion and social mores in the twenty first century      Myth and Solidarity in the Modern World Timothy Stacey, 2018-01-17 In the context of the rise of reactionary politics across the globe this book seeks new ways of developing solidarity across religious political and economic differences Drawing on an increasingly influential Christian theological movement postliberalism it claims that the dominance of liberal secular rationality has blinded people to the fundamental role of transcendence and myth in developing solidarity The result is either atrophy or a retrenching in divisive myths of faith race nation or economic status Liberalism is now a dominant force across the globe But its resonance in the Anglo Saxon West from which it originates and has been most fully realized is relatively underexplored The book thus follows two simultaneous lines of enquiry Firstly a genealogical study of social scientific and policy iterations of the relationship between belief and solidarity in the Anglo Saxon West placing postliberal theory into dialogue with the sociology and anthropology of religion politics and economics Secondly it draws from original ethnographic research with groups in London UK that seek to develop solidarity in the face of deep seated difference By bringing a new way of framing these contentious debates about contemporary society this research offers tools for more productive conversations around religious and political topics in particular concluding with a clear policy proposal It is therefore a useful resource for both academics of theology and religious studies political philosophy sociology and anthropology and for politicians policy makers and practitioners hoping to develop solidarity in the modern world      *Flourishing* Miroslav Volf, Tony Blair, 2016-01-12 More than almost anything else globalization and the great world religions are shaping our lives affecting everything from the public policies of political leaders and the economic decisions of industry bosses and employees to university curricula all the way to the inner longings of our hearts Integral to both globalization and religions are compelling overlapping and sometimes competing visions of what it means to live well In this perceptive deeply personal and beautifully written book a leading theologian sheds light on how religions and globalization have historically interacted and argues for what their relationship ought to be Recounting how these twinned forces have intersected in his own life he shows how world religions despite their malfunctions remain one of our most potent sources of moral motivation and contain within them profoundly evocative accounts of human flourishing Globalization should be judged by how well it serves us for living out our authentic humanity as envisioned within these traditions Through renewal and reform religions might in turn shape globalization so that can be about more than bread alone      *20 Myths about Religion and Politics in America* Ryan P. Burge, 2022-03-01 The way most people think about religion and politics is only loosely linked to empirical reality argues Ryan P Burge in *20 Myths about Religion and Politics* in

America Instead our thinking is based on anecdotes a quick scan of news headlines or worse flat out lies told by voices trying to push a religious or political agenda on a distracted public Burge sees this fundamentally flawed understanding of the world around us and our misperceptions about where we fit into the larger fabric of society as caustic for the future of American politics and religion Without an accurate picture of our society when we subscribe to only caricatures of what our country looks like we never really address the problems facing us Striving to be an impartial referee Burge describes with accessible and engaging prose and illustrates with dozens of clear helpful graphs what the data says Step by step he debunks twenty myths using rigorous data analysis and straightforward explanations He gives readers the resources to adopt an empirical view of the world that can help all of us religious and nonreligious alike get past at least some of the unsupported beliefs that divide us
