may sound like quite the pompous pontificator but I'll offer no apologies because storytelling is the best way to impart the unconventional mindset that saved me from mediocrity and the biohacks that enabled me to defy my selfish genes. If you're bored with the tired problem generalization platitude strategy formula that most self-help books follow, you'll enjoy this memoir of adventures, failures, and unexpected successes across three continents. I'll share with you some powerful tools for transformation: Biohacking, smart drugs, flowstate, red pill mindset, and more, with which I've managed to pack several lifetimes' worth of peak experiences into a single decade.
