**The dead zone** Stephen King,1968      **DEAD ZONE** ,1979      *Damned If You Do* Margaret S. Hrezo,John M. Parrish,2010-01-01 Problems of individual moral choice have always been closely bound up with the larger normative concerns of political theory There are several reasons for this continuing connection First the value conflicts involved in private moral choice often find themselves reproduced on the public stage for example states may find it difficult to do right by both justice and mercy in much the same way individuals do Second we frequently find conflicts among the values at stake in individual life and public life such that the moral choice we must make is between private and public goods Loosely speaking choices which express these conflicts are what philosophers call moral dilemmas choices in which no matter what one does one will be forfeiting some important moral good in which wrongdoing is to some degree inescapable in which one is perhaps literally damned if one does and damned if one doesn't The eight essays collected in this volume explore the philosophical problem of moral dilemmas as that problem finds expression in ancient drama classic and contemporary novels television film and popular fiction They consider four main types of dilemmas In the first section the authors examine dilemmas associated with political stability and regime change as expressed in the HBO television series Deadwood and in Stephen King's novels and short stories The second section confronts dilemmas associated with public leadership considering the ethical conflicts in Aeschylus's classical dramas The Suppliants Tolkien's Lord of the Rings and in the contemporary FOX television series 24 In the volume's third section the authors examine dilemmas of institutional evil specifically slavery as they emerge in Harriet Beecher Stowe's classic novel Uncle Tom's Cabin and in J K Rowling's Harry Potter novels Finally the collection considers dilemmas of community and choice in Toni Morrison's novel Paradise and in the contemporary film A Simple Plan

Mayo,Jennifer Smith-Mayo,2011-05-03 Maine is many things to many people a haven in a world of headaches a fir stippled paradise where summer comes slow and easy a place that is heartbreaking to leave and a relief to return to It is the way life should be More specifically Maine is 3 500 miles of enchanting coastline the 5 267 foot elevation of Mount Katahdin and of course her hardy friendly folks Maine Icons illustrates the quintessential symbols that make Maine so fascinating and unique Profiled here are fifty classic symbols of this extraordinary state revealing little known facts longtime secrets and historical legends From bean hole beans to L L Bean here's the inside story about the very things that give this state its character Did you know that the annual Maine Lobster Festival includes a parade a lobster crate race

and more than 20 000 pounds of lobster cooked in the world's biggest lobster boiler. That it was a woman, Cornelia Thurza Fly Rod Crosby, who became the first licensed registered Maine Guide in 1897. Or that the earmuff was patented in the 1870s by young Chester Greenwood, who went on to be named one of America's top fifteen outstanding inventors. **Stephen King** Rocky Wood, 2017-02-10 This companion provides a two part introduction to best selling author Stephen King whose enormous popularity over the years has gained him an audience well beyond readers of horror fiction, the genre with which he is most often associated. Part I considers the reception of King's work, the film adaptations that they gave rise to, the fictional worlds in which some of his novels are set, and the more useful approaches to King's varied corpus. Part II consists of entries for each series novel, story, screenplay and even poem, including works never published or produced as well as characters and settings.

**As American as Mom, Baseball, and Apple Pie** Linda J. Holland-Toll, 2001 This book does nothing less than redefine the very genre of horror fiction, calling into question the usual conventions, motifs and elements. Unlike many critics of this genre, Linda Holland Toll sees disaffirmative horror fiction acting neither to soothe fears nor reduce them to the vicarious thrills and chills mode, but as intensifying the fears inherent in everyday life.

**Watching the World Die** Mike Bogue, 2023-10-23 During the 1980s popular fear of World War III spurred moviemakers to produce dozens of nuclear threat films. Categories ranged from monster movies to post-apocalyptic adventures to realistic depictions of nuclear war and its immediate aftermath. Coverage of atomic angst films isn't new, but this is the first book to solely analyze 1980s nuclear threat movies as a group. Entries range from classics such as *The Day After* and *WarGames* to obscurities such as *Desert Warrior* and *Massive Retaliation*. Chronological coverage of the 121 films released between 1980 and 1990 includes production details, chapter notes, and critical commentaries.

**Devouring Whirlwind** Will H. Rockett, 1988-11-17 As the popularity of the genre increases and special effects are pushed to greater extremes of terror and cruelty, more and more people have begun to wonder what is the attraction of horror films. Do they have any socially redeeming features? Rockett offers some surprising and provocative answers to these questions in his analysis of the cinema of cruelty. First commenting on our fascination with experiences that transcend the world of ordinary reality, he looks at film as a means of expressing the dark side of human nature. Next he

examines the essential ingredients that go into the making of a horror film the variations that are found within the genre and the links between the best horror cinema and Artaud's Theatre of Cruelty Echoing Artaud Rockett argues that human beings are attracted to horror in films because of an unconscious craving for a reality in which the demonic supernatural acts as a living whirlwind devouring the darkness and bringing viewers closer to the transcendence they are actually seeking The final chapter shows how the finest works in the horror genre achieve this underlying aim He discusses filmmakers such as Roman Polanski who have been able to provide the realism and artistic quality that contemporary audiences demand while preserving the ambiguity and terror necessary to experience the power of transcendent force Rockett's skillful and imaginative exploration of the subject will be appreciated by scholars and general readers concerned with popular culture film literature drama and contemporary social issues
