

Most of the 1965 GT350s displayed at auto shows and media events were fully "gussied-up" with Cragars and top stripes, but the 17th car built was displayed at the 1965 Chicago Auto Show wearing the standard painted steel wheels. (Photo Courtesy Ralph Pampena)

All 1965 GT350s—or rather, all Mustangs that were destined to become GT350s—rolled out of San Jose on Argent-painted plain steel wheels. But they were not just any Ford 15-inch steel wheel; the Shelby wheels had a very limited original usage, which some believe was on the big-block Galaxie only. They can be identified by the three (instead of the more common four) "bumps" to secure the hubcaps. Chrome lug nuts were an attempt to provide a more finished appearance. (Photo Courtesy Colin Comer)

While the basic steel wheel certainly did the job, it did so with a complete lack of glitz, so Shelby American came up with an optional deluxe wheel that was more befitting the type of car it wished the GT350 to be seen as, which was much more than just a fastback Mustang with stripes and a hefty window sticker. Designed by Peter Brock and manufactured by Cragar, the deluxe, extra cost wheel featured an aluminum center and a chrome-plated steel rim. The narrow rocker panel stripe fingers the car as actually a 1966 model, but the wheel was used on both years' GT350s.

Dressing up the Cragar center was a bright silver cap with a white and black CS logo. Chrome lug nuts completed the package, but needed a special lug wrench because of their unusual 7/8-inch flats and their proximity to the ribs of the wheel center.

The GT350's reason for being, the factory competition model—known today as simply the "R-Model." By serial numbers, 5R095 was the second production competition model built, but it was actually the fourth shipped, which illustrates that when talking about Shelby Mustangs, terms like "first" and "last" can have multiple meanings.

The Definitive Shelby Mustang Guide 1965 1970:

The Definitive Shelby Mustang Guide Greg Kolasa,2012-10-02 The Definitive Shelby Mustang Guide takes a detailed look at the performance and styling of the 1965 1970 Shelby Mustangs in text photographs and charts graphs and clears up many myths and misconceptions surrounding these legendary pony cars Carroll Shelby Art Evans,2016-09-15 Art Evans was a sports car racer in the 1950s on the West Coast who raced against and became close friends with Carroll Shelby Their intense competition on the track became a lifelong friendship off the track He and Shelby collaborated on many business projects over the years including books marketing projects projects for the Shelby Foundation and so on In his later years Shelby loved the books about his cars and similar topics but his eyesight was failing to the point where he had difficulty reading and really preferred the books that were heavy with photos It was from that realization that Shelby and Evans decided to work on one last book together They both combed through the Shelby archives and selected Shelby s favorite images from his racing career That is almost the entirety of this book It is packed with photos selected by Shelby himself and the captions are quotes from Shelby s commentary on the action in the photo as well as his memories Unfortunately Carroll Shelby passed away before the book was fully completed but Evans following Shelby s instructions carried this final project through to completion Filled with images that have never been seen in print as well as images not published since the 1950s and 1960s this final work from Shelby is a personally curated collection by the legend himself If you are a sports car racing fan Ford fan Shelby fan or any combination of the three this book is a perfect addition to your automotive library David Kimble's Cutaways David Kimble,2015-09-15 For enthusiasts reading magazines such as Motor Trend Road Track and others David Kimble is no stranger His brilliant cutaway artwork has been gracing the pages of those publications for years Whether he illustrated engines transmissions full car chassis sports cars race cars or classics his cutaway artwork revealed in excruciating detail things that a camera lens could never capture In David Kimble s Cutaways The Techniques and the Stories Behind the Art Kimble reveals the secrets techniques procedures and the dedication to craft that is required to produce these amazing illustrations He covers the step by step procedures while producing fresh artwork for this book featuring a McLaren Can Am car as well as a vintage Harley Davidson Although the procedures covered here are unique to Kimble and pretty much a pipe dream to mere mortals this title provides an inside look into how he does it Also included are the stories and tales of how it all started traveling the world to illustrate cars behind the scenes with manufacturers the Corvette years as well as a gallery of many illustrations Never before has David Kimble provided a look into his cutaway skunkworks or shared the procedures for bringing these beautiful technical illustrations to life This book is a must have for any automotive or art fan *1968 Shelby Mustang GT350, GT500 and GT500KR* Greg Kolasa,2017-01-16 There were Mustangs and then there were Mustangs Ford wanted its new little Pony Car to appeal to the masses and in executing that plan the Mustang could be had in anything from a plain Jane version with an economical 6 cylinder engine often referred to

as a secretary's car all the way up to the sporty GT models with optional 271 hp V 8s Unfortunately although road going Mustangs were considered sporty they were not officially sports cars at least according to the Sports Car Club of America SCCA And Lee Iacocca knew that on track performance led to showroom performance so he needed to go racing Enter Carroll Shelby Shelby worked with the SCCA to modify the Mustang to meet the SCCA's requirements and enter the racing arena The result was the now legendary Shelby Mustang This volume of CarTech's In Detail series covers the 1968 Shelby GT350 GT500 and GT500KR In 1968 Ford sought to take over much of the process of producing Shelby Mustangs and increased that production dramatically to meet anticipated sales demand so it was a bit of a transition year In an effort to appeal to muscle car fans rather than race fans the cars were losing their edgy race car feel and were becoming more high end performance road cars with a long list of performance and comfort options including 428 Cobra Jet Engines automatic transmissions and air conditioning They may have no longer been sports cars but they were now fantastic muscle cars As in all In Detail Series books you get an introduction and historical overview an explanation of the design and concepts involved in creating the car a look at marketing and promotion and an in depth study of all hardware and available options as well as an examination of where the car is on the market today Also included is an appendix of paint and option codes VIN and build tag decoders as well as production numbers
