Create a Travel Journal using Discovery Education *unitedstreaming* & Google Earth

Social Studies

Elementary School Geography Lesson plan

In this unit, grouped student will explore the geography of the United States. Students will create travel journals (or logs/blogs) supported with Google Earth location 'fly-bys' to discuss the five US places visited, including comparing and contrasting the physical characteristics of each region.

Standards:

- Students will be able to describe the human and physical characteristics of modern world regions, such as distribution of natural resources and modifications to the environment, by constructing, interpreting, and using appropriate maps, graphs, charts, and data.

Learning Objectives: The student will be able to,

- Identify and discuss the major geographic regions of the United States;
- Identify key features and vocabulary for each major geographic region of the United States;
- Present and compare group findings to determine if the class has similar definitions for each region.

Technology components:

- Discovery Education *unitedstreaming* account (<http://www.unitedstreaming.com>*)
- Google Earth software (free download from <http://earth.google.com>)
- Computer with LCD projector and Internet connection
- Access to the Internet for teacher and student-based research
- Presentation software such as PowerPoint
- Graphic Organizing software such as Inspiration

Introduction:

- Using graphic organizing software such as Inspiration, have the students brainstorm ideas of places around the United States they've visited or would like to visit.
- Display the *unitedstreaming* image "A Map of North America" in front of the class and ask the students to group the locations according to geographic region.

Prior Knowledge:

- Discuss with the students key elements of biomes discussed in previous classes.
