Mobilities in Remote Places Phillip Vannini, 2023-07-21 *Mobilities in Remote Places* explores the meanings challenges and opportunities of remoteness as practiced and experienced by those who live and work in some of the world's most remote communities. As mobilities around the world proliferate in countless forms the meanings of remoteness undergo significant change. Places once considered impossibly distant have appeared to become closer more accessible and less distinct from global centers of geopolitical power. But instead of disappearing altogether configurations of remoteness evolve manifesting themselves through new possibilities new challenges and new insecurities. Drawing from a variety of case studies from around the globe the contributors of the book examine remoteness as an outcome of evolving mobility constellations. Rather than defining remoteness as an absolute or objective time distance condition the book shows how remoteness is a practice experience and representation that is situated relational and emergent. This collection of original and thought provoking chapters will be of interest to students and researchers in the humanities and social sciences with an interest in mobilities place and human geography. Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

Returning Migrant Workers United Nations. Economic and Social Commission for Asia and the Pacific,1986 The
research reports and statements by government representatives contained in this volume were presented at the Policy
Workshop on International Migration in Asia and the Pacific held at Bangkok from 15 21 October 1985 The workshop was the
final activity of a 2 year Economic and Social Commission for Asia and the Pacific ESCAP project on international migration
policy in Asia and the Pacific funded by the UN Fund for Population Activities The 2nd phase of the project includes the
studies reported in this volume which were intended to be exploratory They were meant to assess the current state of
knowledge regarding return migration and to identify critical issues that would require further investigation 5 of the studies
are concerned with return migration from temporary employment primarily in the Middle East Because many of the labor
sending countries of the Mediterranean basin experienced a rapid expansion of labor emigration largely to northern and
western Europe and a contraction of the flow and increase in return migration prior to current trends in Asian labor
migration it was felt that a background paper on that experience would be value to policy makers in the ESCAP region
Migration from the Pacific sub region of ESCAP is both of more variable duration and less heavily labor oriented than
temporary migration from Asian countries to the Middle East The workshop s objectives were 1 to bring together researchers
and policy makers to review carefully the results of the 7 studies carried out as part of the project 2 to relate the research
findings to feasible government policies for the reintegration of returning labor migrants and 3 to make and disseminate
policy recommendations to governments in the ESCAP region **New International Yearbook** ,1920 *Heating,*
