Education Paul Bélanger,Ettore Gelpi,1995-05-31 The basic aim of this special issue is to focus on the profound change of tendency in education that is taking place at both the national and interna tional level At a time when education and lifelong learning are increasingly merging into one process it is important to examine the ways in which edu cational policies and practices are evolving Consequently we invited a variety of contributors both men and women coming from different regions and encompassing both research and practice to identify significant phenomena and trends that are indicative of the ways in which systems of education are responding to new social and cultural demands We asked our contributors to show how educational reality in different countries is no longer confined within the temporal and spatial limits of institutional education to indicate how models of educational practice are changing to examine the extent to which the traditional cycles of human life are shifting their boundaries and to describe how these changes are mani festing themselves in different national contexts in both South and North We also asked our authors to pose questions raised by this educational revolution We have included 17 contributions some of the authors analysing par ticular national situations others drawing questions and observations from their own experiences or taking a searching look at education from the perspective of a practical involvement in social iSl ues or from a background of research into popular arts and traditions **Éléments de**

The Marquis de Sade and the Avant-Garde Alyce Mahon,2020-05-26 This is the first book to examine the cultural history of Marquis de Sade s 1740 1814 philosophical ideas and their lasting influence on political and artistic debates An icon of free expression Sade lived through France s Reign of Terror and his writings offer both a pitiless mirror on humanity and a series of subversive metaphors that allow for the exploration of political sexual and psychological terror Generations of avant garde writers and artists have responded to Sade s philosophy as a means of liberation and as a radical engagement with social politics and sexual desire writing fiction modelled on Sade s novels illustrating luxury editions of his works and translating his ideas into film photography and painting In The Sadean Imagination Alyce Mahon examines how Sade used

images and texts as forms that could explore and dramatize the concept of terror on political physical and psychic levels and how avant garde artists have continued to engage in a complex dialogue with his works Studying Sade s influence on art from the French Revolution through the twentieth century Mahon examines works ranging from Anne Desclos s The Story of O to images texts and films by Man Ray Pier Paolo Pasolini Guillaume Apollinaire Jean Jacques Lebel and Peter Brook She also discusses writings and responses to Sade by feminist theorists including Angela Carter and Judith Butler Throughout she shows how Sade s work challenged traditional artistic expectations and pushed the boundaries of the body and the body politic inspiring future artists writers and filmmakers to imagine and portray the unthinkable
