Financial Accounting: IFRS Edition Grace Ford, 2014-12-10 Financial accounting or financial accountancy is the field of accounting concerned with the summary analysis and reporting of financial transactions pertaining to a business This involves the preparation of financial statements available for public consumption Stockholders suppliers banks employees government agencies business owners and other stakeholders are examples of people interested in receiving such information for decision making purposes Financial accountancy is governed by both local and international accounting standards GAAP which stands for Generally Accepted Accounting Principles is the standard framework for guidelines for financial accounting used in any given jurisdiction It includes the standards conventions and rules that

accountants follow in recording and summarising and in the preparation of financial statements On the other hand IFRS International Financial Reporting Standards is a set of international accounting standards stating how particular types of transactions and other events should be reported in financial statements IFRS are issued by the International Accounting Standards IASs With IFRS becoming more widespread on the international scene consistency in financial reporting has become more prevalent between global organisations Whilst financial accounting is used to prepare accounting information for people outside the organisation or not involved in the day to day running of the company management accounting provides accounting information to help managers make decisions to manage the business **Global Financial**

Accounting and Reporting Peter J. Walton,2009 *Financial Reporting under IFRS* Wolfgang Dick,Franck Missonier-Piera,2010-10-11 The International Financial Reporting Standards are quite different from other sets of accounting standards and are fundamentally different from US GAAP in that they are based on principles and not on detailed rules *Financial Reporting under IFRS* A topic based approach offers a global perspective on IFRS by presenting the prescribed rationale and principles and illustrating them through numerous examples from large international companies It aims to develop the fundamental skills necessary to read and use the information contained in all types of financial statements through examples activities questions and answers The book is broadly divided into three sections Section one examines the structure of the Balance Sheet and the Income Statement their links and the accounting mechanisms used to prepare them Section two deals with the identification evaluation and reporting of Balance Sheet items Section three covers the use of financial statements to analyze a firm s performance and its risks Throughout the book special topics are covered including Derivatives and Hedge accounting IAS 39 Business Combination IFRS 3 and Operating Segments IFRS 8 *Financial Reporting under IFRS* is ideally suited to the needs of students of accounting and financial reporting but all users of financial statements from creditors and investors to suppliers customers employees and governments will benefit from its concise topic based approach *An Executive's Guide for Moving from U.S. GAAP to IFRS* Peter J. Walton,2009 International Financial Reporting Standards IFRS are becoming the benchmark accounting standards for companies listed on international stock exchanges The SEC treats them as equivalent of US Generally Accepted Accounting Principles GAAP and is even contemplating allowing their use instead of US GAAP They are mandatory in Europe Australia and South Africa Canada China Brazil Japan and India are planning to use them from 2011 Anybody interested in companies listed on the US stock exchanges needs to know something about them because hundreds of foreign companies are already using them to report in the US Anybody interested in international business has to know these benchmark financial reporting rules This book will explain the complex inter relationships between the International Accounting Standards Board the creator of IFRS the Financial Accounting Standards Board FASB and the Canadian Accounting Standards Board AcSB their work programme and their plans for the future It will look at a series of central accounting issues such as revenue recognition liabilities pensions

off balance sheet vehicles impairment intangible assets etc and discuss how IFRS differ from US and Canadian GAAP It will explain the organisational structure and background of the IASB and it will look at the potential impacts to financial reporting by American companies
