### **Sign Language in Mainstream Education for the Deaf and Hard-of-hearing Students in Asia** Gladys

Tang,2025-05-23 This book focuses on two means of recruiting sign language to support DHH students in mainstream education in Asia. The first approach is educational sign interpreting which has been adopted to support signing DHH students in mainstream classrooms in Taiwan. Contributions report on a questionnaire survey with post hoc interviews examining the reactions of students, parents, a resource teacher, and an interpreter towards providing this service in the education system. The second approach is co enrolment which involves bringing a critical mass of DHH students into the mainstream classroom for them to study with hearing children supported by either a deaf teacher or a teacher highly proficient in signing who co-teaches with a regular teacher and co-shares responsibilities in taking care of the whole class of students. The chapters exemplifying this approach report on the effects of co enrolment on DHH students' language development and academic attainment. This book was originally published as a special issue of *Deafness Education International* *Language Acquisition By Eye* Charlene Chamberlain, Jill P. Morford, Rachel I. Mayberry, 1999-08. This volume explores the reading development of native speakers of sign language as well as their early pre-literacy language development. For deafness and sign language scholars as well as linguists and reading specialists.
