The book makes clear the unique geographical, topographical and sociological conditions that beckoned the first settlers who developed the large estates that became sugar plantations. This first of four planned volumes chronicles details about founders and their estates along Bayou Terrebonne from its headwaters in the northern civil parish to its most southerly reaches near the Gulf of Mexico. Those and other parish plantations along important waterways contributed significantly to the dominance of King Sugar in Louisiana. The rich soils and opportunities of the area became the overriding reason many well heeled Anglo Americans moved there to join Francophone locals in cultivating the crop.
