Statistics Using Technology:

Statistics Using Technology Kathryn Kozak, 2014-05-27 This is a statistics textbook to be used in an introductory statistics class. This book uses technology to calculate probabilities. The approach to this textbook is to ask people to interpret statistics and think statistically.

Statistics Using Technology, Second Edition Kathryn Kozak, 2015-12-12 Statistics With Technology Second Edition is an introductory statistics textbook. It uses the TI 83/84 calculator and R, an open source statistical software, for all calculations. Other technology can also be used besides the TI 83/84 calculator and the software R, but these are the ones that are presented in the text. This book presents probability and statistics from a more conceptual approach and focuses less on computation. Analysis and interpretation of data is more important than how to compute basic statistical values.
