Meeting the Challenges of Data Quality Management Laura Sebastian-Coleman, 2022-01-25 Meeting the Challenges of Data Quality Management outlines the foundational concepts of data quality management and its challenges The book enables data management professionals to help their organizations get more value from data by addressing the five challenges of data quality management the meaning challenge recognizing how data represents reality the process quality challenge creating high quality data by design the people challenge building data literacy the technical challenge enabling organizational data to be accessed and used as well as protected and the accountability challenge ensuring organizational leadership treats data as an asset Organizations that fail to meet these challenges get less value from their data than organizations that address them directly The book describes core data quality management capabilities and introduces new and experienced DQ practitioners to practical techniques for getting value from activities such as data profiling DQ monitoring and DQ reporting It extends these ideas to the management of data quality within big data environments This book will appeal to data quality and data management professionals especially those involved with data governance across a wide range of industries as well as academic and government organizations Readership extends to people higher up the organizational ladder chief data officers data strategists analytics leaders and in different parts of the organization finance professionals operations managers IT leaders who want to leverage their data and their organizational capabilities people processes technology to drive value and gain competitive advantage This will be a key reference for graduate students in computer science programs which normally have a limited focus on the data itself and where data quality management is an often overlooked aspect of data management courses Describes the importance of high quality data to organizations wanting to leverage their data and more generally to people living in today's digitally interconnected world Explores the five challenges in relation to organizational data including Big Data and proposes approaches to meeting them Clarifies how to apply the core capabilities required for an effective data quality management program data standards definition data quality assessment monitoring and reporting issue

management and improvement as both stand alone processes and as integral components of projects and operations Provides Data Quality practitioners with ways to communicate consistently with stakeholders *Judges, Decision Making and Empathy* Mateusz Stępień, Ewa Wilczek-Rużyczka, 2025-03-31 This book presents empirical research uncovering the views and experiences of Polish judges regarding the utilization of empathy in their work Although there is growing interest in the role of empathy in judicial decision making there is little research on how judges themselves approach this issue This volume offers an alternative to the usual focus on common law jurisdictions It adopts a perspective that underscores the impact of professional pressures on judges empathic abilities leading to a form of empathy labor influenced by the unique characteristics of the judicial profession It offers an in depth examination of judges opinions collected through an empirical study involving in depth interviews The narrative delves into real cases and judicial behaviors discussed by judges providing reference to relevant literature from other jurisdictions The core finding of the study reveals that while judges may differ in their approaches to empathy in a judicial context many of their practices and strategies can be linked to empathy like phenomena The findings also substantiate the claim that empathy used by judges is not the same as judicial empathy which covers empathic abilities integrated into performing the judicial role This applied theoretical perspective of empathy labor offers an intriguing view of how the occupational context influences judges empathic inclinations throughout their careers In addition to demonstrating how judges understand the role of empathy in their work the book outlines a scenario for empathy training based on their experiences and expectations Presenting an original approach to studying the role of empathy in judicial decision making the book will be of interest to academics and researchers working in the areas of philosophy of law legal theory sociology of law psychology of law and emotions studies *Art LoVers: Celebrating Elisabeth de Bièvre and John Onians in Words and Pictures* Gyöngyvér Horváth, Isabelle Onians, 2025-07-03 This double Festschrift honors art historians Elisabeth de Bièvre and John Onians on their 55th wedding anniversary It features personal and professional tributes artworks and scholarly articles highlighting their innovative contributions to World Art Studies geography of art and neuroarthistory *Children and the Ethics of Creativity* Victoria Jane Hargraves, 2020-08-26 This book presents a critical reimagining of education and educational research in addressing practices of representation and their relation to epistemology subjectivity and ontology in the context of early childhood education Drawing on posthumanist perspectives and the immanent materialism of Deleuze Guattari to conceive of early childhood education childhood and indeed adult life in new ways it highlights the powerful role of language in subjectivity and ontology and introduces affectensity as a concept which can be put to work to undo habitual relations and meanings It proposes that ethical becomings require the engagement of an expansion and intensification of a body s affect or capacity and offers readers a provocation for enhancing creative capacity as an ethic This book is an important contribution to the discussions on methods for living and of ways of thinking commensurate with the orientation of a posthuman turn **Women as Objects of Men in Shakespeare's "The**

Merchant of Venice" Matthias Billen, 2011 Studienarbeit aus dem Jahr 2009 im Fachbereich Anglistik Literatur Note 2,0 Universität Trier Sprache Deutsch Abstract 1 Introduction The relationship between women and men and the broader social judicial familial psychological or political ramifications of this relationship is an ongoing topic in the cultural arena with discussions of varying degrees of intensity and often with extremely different conclusions The movement of feminism can be seen as initiator but also as a catalyst or as an outcome of these discussions But there is no monolithic block of feminism and no single literary theory of feminism but one major landmark in the evolution of feminism is the publication of Simone de Beauvoir's book *Le Deuxième Sexe* in 1949 By tracing back women's role and position in society with different methods she stresses that the oppression of women is due to patriarchy pervading almost all societies Turning back to literature this description of patriarchy can usefully be applied in analysing a drama such as Shakespeare's *The Merchant of Venice* 1998 The female characters in this comedy are embedded in societal structures of patriarchy This can be seen in the influence of father figures the economic principles which underlie their existence and the final subjection to their husbands even though they actively participate But eventually they remain in their traditional role not being able to subvert the societal system effectively To support this thesis the concept of feminism will be discussed especially in regard of de Beauvoir's viewpoint In a second step the role of women in the Renaissance will be concerned immediately referring to the play and its female characters
