**Multidimensional development of student-athletes: new perspectives on dual-career** Ricardo Quinaud,Mojca Doupona,Laura Capranica,Flavia Guidotti,2025-10-27 Over the past decades the investigation of the dual career phenomenon among student athletes has witnessed noteworthy advancements It is well known the demands and challenges to achieve a mastery elite performance in sport combined with academic commitments However studies have reported segmented information on it mostly due to the difficulty of investigating those several aspects that influence the development of a dual career and the perspective of

adopting a unidimensional view. Consequently there is a pressing need to embrace a comprehensive multidimensional view to prepare them for any future that they can be expecting. Such an encompassing perspective is paramount in discerning their requisites and proactively equipping them for the diverse range of future possibilities they may encounter. A singular viewpoint bereft of a holistic purview may engender misapprehensions about their dual career trajectories. In light of this we want to encourage researchers to combine their knowledge with the practical context lived by millions of student athletes all over the world. Thus our goal with this special issue is to bring the most recent advances in student athlete dual career and look forward to how all this knowledge can improve student athlete development worldwide from a multidimensional perspective. In order to achieve these goals we encourage manuscripts on any of the following topics: Student athletes dual career transitions; sports policies and legislation on student athletes; dual career sports management on student athletes; dual career psychological measures on student athletes; dual career paralympic student athlete; dual career student; student athletes dual career programs and environments; student athletes dual career supporters; measures of sport and educational demands and loadings on student athletes; dual career worker athletes; dual career methodological approaches; designs and gaps in research into student athletes dual career. Through the expression of mindful awareness the development of conscious awareness of bias unfolds positively affecting interpersonal relationships. This applied culminating project examines the relationship between trait mindfulness and implicit racial bias. The population for this research study consisted of volunteer public school teachers from within school districts in Southern California during the 2021 2022 academic year. A mixed methods approach examined the skills of individuals who self identify as using mindful practices and whether they impact interpersonal relationships. New Perspectives on Turkey, 2006 New Perspectives, 1981 **OMG (Oh My God), A CUL8R Time Travel Mystery/Romance** Bob Kat, 2012-11-29 OMG Oh My God Book 1 of the CUL8R Time Travel Mystery Romance series Change the past Save the future Three high school friends are able to do two things no one else on the planet can do talk with dead people and time travel to the past For Kelly it's a major adjustment to move from the only life she has ever known in Texas to live with her aunt in Ft Myers Beach Florida. She quickly makes friends with her quirky next door neighbor Scott and his best friend Austin. In her aunt's garage they find a

long lost invention of Thomas Edison called The Telephone to the Dead Edison had abandoned the project and given it to Kelly's great great grandfather Scott tinkers with it until they can hear sounds coming from it. But instead of broadcasting music it picks up conversations from the dead. As they slowly turn the dial they hear hundreds of sad lonely voices of souls that have passed but apparently never moved on pleading for help. A teenager's voice separates from the rest and begs for their help to clear her reputation. They are shocked to find out that she had gone to their own high school 47 years ago. They research the girl's story and discover that her name was Wendy and she had been a popular cheerleader who had apparently committed suicide. The teens are touched by Wendy's cries and pleas but they have no way to go back in time to help her. That is until Scott reveals an invention of his own a time travel app. Kelly and Austin are very skeptical. Even Scott isn't sure it will work so they try it out on his sister's pet turtle. Amazingly the turtle disappears. But did it travel to the past or just wander off? Finally they decide to humor Scott and go along with his claims of time travel. They meet on the beach after everyone else has gone home. They stand in the formation Scott insists will create the perfect vortex for time travel. At the last moment a fourth person runs forward and is pulled into their adventure back to 1966. They figure out a way to get close to Wendy without her asking too many questions that they can't answer. But as they discover the secret to her death they find it's not as clear cut as it would seem. A romance gone wrong an over attentive teacher and a young girl's dreams for the future are all twisted into a mystery that causes the teens to take greater risks than they could have imagined. It all becomes very real when their own lives are in danger and they realize they may never make it back to the present. OMG!
